Attachment to SF115, Department of Health and Human Services (HHS) Request for Records Disposition Authority for HHS Office of the Secretary Tracking Accountability in Government Grants System (TAGGS)

1) Tracking Accountability in Government Grants System (TAGGS):

The Tracking Accountability in Government Grants System (TAGGS) is an extensive tool developed by the Department of Health and Human Services (HHS) Office of Grants. The TAGGS database is a central repository for grants awarded by all HHS Operating Divisions (OPDIVs). TAGGS tracks obligated grant funds at the transaction level. It allows internal users, Congress, government agencies, interest groups, and the general public the ready ability to query the database for information on all HHS domestic and international grants. Data is from 1995 to the present. The disposition of the grant case files is covered by NC1-235-80-01, item 201-27.

a Master file: Central repository for all HHS grant transaction data – current and past grant award information, Congressional district, grant program name, recipient (grantee) name, recipient location (state, city, zip, and/or congressional district), and awarding OPDIV transaction amount (or sum of transactions). Also, includes summary abstracts of some grant projects. Grants are closed after final audit or payment of grant.

Disposition TEMPORARY. Cut off closed grants at end of fiscal year. Delete 10 years after cutoff.
