1	Area Resource Files. 1940- Electronic files maintained by a contractor, arranged by State and thereunder by country, consisting of county-specific health resources information updated at regular intervals. The files is designed to be used by planners, policymakers, researchers, and other professionals interested in the Nation's health care delivery system and factors that may impact health status and health care in the United States. Originally designed to assist in the location of Area Health Education centers, the file now provides a wide range of information on health facilities, health professions, geographic codes and descriptors, health facilities utilization, economic activity, population characteristics, measures of resource scarcity, health status, health professions training programs, demographics, vital statistics, and socioeconomic and environmental characteristics for all counties or their equivalents in the United States. The information is collected from a wide variety of sources including the U.S. Census Bureau, Bureau of Labor Statistics, Health Care Financing Administration, National Center for Health Statistics, and the American Medical Association. <u>Disposition: PERMANENT.</u> <i>two years after the</i> Cut off file at the end of the annual update. Transfer to the National Archives with related documentation immediately after cutoff.		<i>Pen & Ink change per R.O. Angela Tuscani, 2/22/12 YST</i>
