	2. Master file:		
4	<b>a.</b> Exercise and Plans Data: This data refers to planning and execution. Information content includes data on planning, user identification, plan title and abbreviation, security classification, unit or operational facility responsible, references required, dates, approvals and type of contingency. Data on exercise includes scheduled events, exercise, estimated and actual funding requirements, type of exercise, location, submitting unit, start date and end date, director, sponsor, point of contact and telephone number, outline of exercise accomplishments, major objectives, a synopsis of what the exercise is about, what can be expected and the plan that is to be exercised, participants and any additional remarks. Also included with each plan within CPS (as described in item 1B) is a link to corresponding lesson learned, best practice or AAR within CG-SAILS.		
	Cutoff completed plans and concluded exercises every calendar year and <b>Destroy/Delete</b> 20 years after cutoff or when no longer needed for reference, whichever is later. <b>b. Standard After Action Information and Lessons Learned</b>		
5	System (CG-SAILS): This data refers to analysis of operations and exercises after they have been concluded. CG-SAILS is a web- enabled tool designed to ensure information and experiences gained		
	from real-world operations and exercises are captured in a system that is readily accessible at all levels of the organization. The system increases corporate knowledge and enhances USCG organizational efficiency. CG SAILS provides a process for the collection, validation, distribution, feedback and the subsequent remediation of issues identified and derived from operations and exercises. Fields within the system are standardized and formatted for ease of use and for inclusion into external resources. Data format for AAR includes event name, type of mission, point of contact, expenditures, general description or summary of operational highlights, operational data including command, control, communication and information, intelligence, planning, and statistical data. Also included are objectives, major lessons learned, limitations and casualties and extent of participants. Data format for Lesson Leaned or Best Practice includes event name, recommended action, date span, type of contingency, theme of lesson learned, core component and contextual data, observations, discussion, and recommendations.		
	<b>Permanent</b> . Cutoff data for completed records only every third calendar year and transfer to NARA.
