1	The Electronic Criminal File Tracking System (CFTS) is an application used to charge out and track the physical location of a closed case file within Headquarters. The application is administered by two technicians assigned to the Investigative Support Division (ISD), who charge out closed case files for use by investigative operational divisions. When an operational division returns the closed case file to ISD, the charge-out file data is re-entered into the CFTS, and the entry is retired/deleted out of the entire system. System Inputs Major inputs consist of online keyed entries made by administrative support technicians in ISD by charging out closed criminal case file folders. Temporary Charged out data is retired/deleted when the closed case file folder is returned to the Investigative Support Division	GRS 20, Item 2a(4)
