7 ITEM NO	8 DESCRIPTION OF ITEM AND PROPOSED DISPOSITION	9 GRS OR SUPERSEDED JOB CITATION	10 ACTION TAKEN (NARA USE ONLY)
1.	<p>The Customer Proprietary Network Information (CPNI) Breach Reporting Portal is a tool for telecommunications carriers to report a breach of their customers' CPNI to law enforcement. It is co-sponsored and administered by the United States Secret Service (USSS) and the Federal Bureau of Investigation (FBI). The system is solely managed by the USSS.</p> <p>System access by non-USSS and non-FBI users is limited to registered users of the Federal Communications Commission's Commission Registration (CORE) system</p> <p>Major inputs consist of data detailing a CPNI breach, entered via a web form, by providers of telecommunications services or interconnected Voice Over Internet Protocol (VOIP) services that are regulated by the FCC. Responses to breach reports are entered by registered Secret Service and FBI users authorized to investigate these breaches. All data from the system is original data, entered by the end user, and does not originate from other systems. Authentication data for non-Secret Service and non-FBI users is provided by the FCC's Commission Registration System (CORES), but is not stored in the CPNI Breach Reporting System.</p> <p>Temporary</p> <p>Destroy/delete after one year or when no longer needed for agency business, whichever is sooner</p>	GRS 20, Item 2a(4)

3.	<p>System Outputs</p> <p>The CPNI Breach Reporting Portal produces the following outputs</p> <p>Web Pages</p> <p>1) Report Page - Allows users to submit data typed into a web form, and enter it into the application as a new report.</p> <p>2) View Only Page - The Secret Service and FBI can use this page to see the contents of the reports.</p> <p>3) Response Page - Allows Secret Service and FBI personnel to enter responses to the reports</p> <p>E-Mail: Each time a telecommunication carrier submits report data via the web form, the CPNI system compiles this data into an e-mail that is sent to the Secret Service and to the FBI. When the Secret Service and/or FBI enters its response into the system, the system also generates and sends an e-mail to the carrier, stating whether more information is needed, or advising that no action will be taken</p> <p>PDF Report Each month a report is generated, in Adobe Acrobat pdf format, and e-mailed to the FBI that details a list of reports entered, the dates, the description, and each agency's response.</p> <p>Temporary</p> <p>Destroy/delete after one year or when no longer needed for agency business, whichever is sooner.</p>	GRS 20, Item 16	
4.	<p>Case Files</p> <p>Reports or other outputs generated via the portal that become part of an investigative case file will be retained for a period which corresponds to the specific case type developed, e.g., judicial, non-judicial, criminal, non-criminal, etc. Investigative records are retained and disposed of in accordance with the respective records disposition schedules already approved by NARA for each agency. Case files are stored, destroyed, and/or transferred according to the applicable agency case disposition authorization.</p> <p><i>Files covered by NI-87-92-2, Criminal files, Investigative Files, etc. and other schedules, including NCI-87-84-1. JC 5/11/09</i></p> <p>Temporary</p> <p>Retain according to the applicable disposition authority for that case.</p>		
5. ②	<p>Pending or Current Litigation</p> <p>Records affected by pending or current litigation will be retained as directed by the responsible court or judicial authority. If the litigation relates to a case that is a joint effort of the Secret Service and FBI, each agency will retain its respective records which correspond to that case.</p> <p>Temporary</p> <p>Retain until litigation is terminated, or until otherwise directed by the responsible court or judicial authority, or according to the applicable disposition authority for that case, whichever is later.</p>
