Computerized Activities Results Lists (CARL) Files

This new computerized system will replace an existing hard copy system. This will substantially reduce paper records for both the States and FEMA.

These files are a segment of the Comprehensive Cooperative Agreement (CCA) Program (Schedule previously submitted NI 311-86-1). For each program supported by the CCA, the States prepare a statement of work that includes a list of specific activities, an "Activities Results List" (CARL), to be accomplished during the fiscal year. Each State will enter the information into a personal computer (PC) and transmit this activity results list (floppy disk) to the FEMA regional offices. This file will serve as the basis for CCA negotiations between the States and FEMA regional offices. After regional office approval, the file will be transferred to FEMA Headquarters. Retain floppy disks for a period of 6 years 3 months for each State.
