	<b>TSA Functional Group: 3500 – Law Enforcement</b>  <b><u>New Record Items:</u></b> <b>Canine Web-based Systems</b> <b>(includes but not limited to <i>Canine Web Site System (CWS)</i>)</b>		

**Transportation Security Administration  
3500 – LAW ENFORCEMENT**

**Background:** Under the Aviation and Transportation Security Act (ATSA), the Transportation Security Administration (TSA) is responsible for security in all modes of transportation. TSA's National Explosives Detection Canine Team Program (NEDCTP) prepares dogs and handlers to quickly locate and identify dangerous materials that may present a threat to transportation systems.

The Canine Web-based Systems, which includes the *Canine Web Site System* (also known as CWS) is a web-based system designed to assist in coordinating canine operations. The web-based systems serve as the central management database for all National Explosives Detection Canine Team Program (NEDCTP) and similar program records and operations. These systems may collect personally identifiable information (PII) used to facilitate training, foster communication, and to perform administrative functions, among other activities.

~~Item 1a. **System Inputs:** (GRS 20)~~

~~Disposition: **Temporary.** Cut off upon successful completion of entry and verification of information. **Destroy/delete** immediately after cutoff.~~

~~**NOTE:** Handler Social Security Numbers (SSNs) and credit card numbers used solely for the purposes of processing initial travel orders and reimbursements and should be deleted from system upon verification of information. This information should not be captured as part of the 'Master File.'~~

Item 1b. **Master File:** System maintains information about each canine handler (team). Data captured may include: handler and dog names, genders, agency names, contact telephone numbers (e.g., work, home and mobile), addresses (e.g., work and home), email addresses (business and personal), and fax numbers; the Airport identification codes for and names of the canine teams; optional handler and canine biographies; and supervisors' and trainers' names and individual and canine team training records, and canine adoption applications. *Jeremy Schmidt / 512572017*

Disposition: **Temporary.** Cut off annually in year which training activity/class is completed or suspended. **Destroy/delete** 15 years after cutoff.

**NOTE:** The originally proposed disposition of 3 years falls far short of the 15 year retention for similar canine training records maintained by a another Federal Agency (U.S. Secret Service, NARA authority – N1-087-97-2 item 3) with law enforcement responsibilities. With that in mind and based upon OLE/FAMS' lack of sufficient business reason to justify and support their proposed 3-year retention period, OIMP is requesting that these records be kept for 15 years, which is consist with similar NARA-approved record schedules.

Item 1c. **System Outputs:** (GRS 20)

Disposition: **Temporary.**

Item 1d. **System Documentation:** (GRS 20)

Disposition: **Temporary.**
