	TSA Functional Group: 2200 – Threat Assessment and Credentialing <u>New Record Items</u> • Alien Flight Student Program **See Attached Sheets**		

Alien Flight Student Program (AFSP) – AFSP conducts background screening checks for any non-U.S. citizen who requests Federal Aviation Administration (FAA)-certified flight training within the United States. AFSP established as an added layer of security to protect our Nation's airways. It requires all non-U.S. citizens requesting to undergo FAA-certified flight training to submit to background screening that involves the student providing fingerprints, biographical information, security documents including passport copies, and specific information about their desired training events. AFSP requires flight schools to submit digital photographs of requestors approved for training.

The program was created in accordance with Section 612 of the *Vision 100 – Century of Aviation Reauthorization Act* that was signed into law on December 12, 2003. This Act transferred the process of authorizing non-U.S. citizens to study flight in the United States from the FBI to TSA. The legal authority for this program's existence is 49 CFR Part 1552, *Flight Schools*. TSA has an online system named *Alien Flight Student (AFS)* that is used for initial and recurrent flight school security awareness training. AFS has an approved schedule (N1-560-06-6, Items 1 – 10 and GRS 11a and 11b).
