**Mail Management Business Intelligence Tool (MBIT)**

NARA # *21-503-08-15*

The Department of Homeland Security (DHS) developed the Mail Management Business Intelligence Tool (MBIT) to collect and track meaningful performance metrics and program information from locations that process mail. DHS has over 2,000 locations conducting mail operations throughout the continental US and its territories, overseas, and aboard deployed DHS entities.

Management Directive 0590 and 0590.1 requires that all DHS Components report data on mail volume, expenditures, and performance. MBIT, accessible via a web-based interface, standardizes and consolidates the collection and reporting of this data in such a manner that DHS mail managers and administrators have a clear and quantifiable view of DHS mail operations to help in making informed management decisions regarding mail operations.

---

**Master File / Data:**

**Mail Center Service, Performance, and Facility Data**

The content includes expenditures, volumes, performance metrics, mail center specific address and personnel information, budget information collected from Mail Personnel throughout DHS (Federal and Contractor) and the US Postal Service Official Mail Accounting System (OMAS).

Data is maintained within the system for 5 years, then removed from the system and archived offsite for 10 additional years.

**Disposition:**

Cut off files at the end of the calendar year. Destroy/Delete 15 years after cutoff.
