The Computer Linked Application Information Management System, CLAIMS 4 (C-4), is an electronic case management system that is used in USCIS Field Offices to process and adjudicate applications associated with naturalization and/or citizenship benefits.

C-4 interfaces with a number of USCIS electronic systems, enabling Field Offices to:

- Determine the status of pending applications for naturalization and/or citizenship

- Print naturalization and/or citizenship certificates
- Print notices to be sent to applicants and their attorneys or accredited representatives relating to an application

System Documentation includes data administration records, such as maintenance of data standards, corporate data models, registries, and data definitions and dictionaries. These records relate to administrative support for the maintenance of data standards, data definitions and data dictionaries, and may be destroyed five years after the system is superseded, obsolete, or no longer needed for agency business, unless longer retention is required, per GRS 3.1, Item 050 and 051.

- N-426, Request for Certification of Military or Naval Service

- Naturalization and/or Citizenship certificates

- Fingerprint collection notices
- Interview and Oath Scheduling Notices
- Payment Problem Notices
- Oath Preparation Notices
- Declaration Notices
- Canned Reports requested by the courts

TEMPORARY: The canned reports, which are lists of candidates scheduled to appear for naturalization hearings before a judge, are sent to the courts, if generated, and the other originals, if generated, are sent to the applicant. Destroy when no longer of reference value, as long as the reports don't fall under any exclusions as outlined in GRS 5.2, Item 20.
