Background Information

The Office of Special Investigations (OSI) Processes Tracking System – Situational Advisory Form Evaluation (SAFE) – is a case management and reporting system that collects data on USCIS employees and contractors who present behavioral risk concerns and individuals who are involved with or who are concerned about the individual who is a potential risk. The information in the case management system includes personally identifiable information and sensitive information from a variety of sources and is used to assist in determining risk of violence in the workplace and to assist in the creation of management strategies to help at-risk individuals and victims. Source material will be provided by direct interview of individuals involved in the process, from Office of Investigations (OI), Office of Equal Opportunity and Inclusion (OEIO), OSI Office of Special Investigations (OSI), Human Capital and Training (HCT), law enforcement, and publicly available sources.
