Student and Exchange Visitor Information System II (SEVIS II)

The Student and Exchange Visitor Information System II (SEVIS II) is an electronic system used by the U S Immigration and Customs Enforcement (ICE), Student and Exchange Visitor Program (SEVP) to track and monitor F/M/J nonimmigrants throughout the duration of approved participation within the U S education system or designated exchange visitor program SEVIS II also maintains information on the schools, exchange visitor program sponsors, and their representatives SEVIS II is a modernization effort that addresses the limitations of the original Student and Exchange Visitor Information System (SEVIS) immigration benefits tracking tool, which was previously scheduled under N1-563-04-1 (which superseded NC1-85-85-1)

F, M and J nonimmigrants are described as

F-1 Admission For foreign students pursuing a full course of study in a college, university, seminary, conservatory, academic high school, private elementary school, or other academic institution or language training program in the U S that SEVP has certified to enroll foreign students

M-1 Admission For foreign students pursuing a full course of study in a U S vocational or other recognized nonacademic institution (e g technical school) that SEVP has certified to enroll foreign students

J-1 Admission Foreign nationals who are selected by an exchange visitor sponsor that the Department of State (DoS) has designated to participate in an exchange visitor program in the U S

SEVIS II is used to track F, M and J nonimmigrants and their dependents during their stay in the U S SEVIS II allows DHS and the Department of State (DoS) to administer the student and exchange visitor programs by certifying and designating schools and sponsors and ensuring their ongoing compliance with Federal requirements and regulations The system also enables DHS and DoS to monitor the progress and status of lawfully admitted F/M/J nonimmigrants residing in the United States, to ensure they comply with the obligations of their U S admittance, and to maintain a history of their status-related activities The system is used to identify and act on potential compliance violations by schools, sponsors, and F/M/J nonimmigrants The system is also used to support other homeland security and immigration activities, such as deciding F/M/J nonimmigrants' requests for immigration benefits and for admission to the U S Finally, the system supports the analysis of information in the system for law enforcement, reporting, management, and other mission-related purposes
