Hiring Tracking System (HITS)

The Hiring Tracking System (HITS) is utilized to create, store, manage and track U S Immigration and Customs Enforcement (ICE), Office of Human Capital (OHC) records pertaining to vacant positions at the agency and the hiring of selectees as they progress through the hiring process for those positions. The data maintained in HITS allows ICE to efficiently track the progress of its hiring actions and to ensure that persons selected for vacant positions are suitable for those jobs by successfully completing evaluations and training that are prerequisites for those positions. HITS tracks ICE position vacancies from the time they are created through a candidate's selection and enter-on-duty (EOD). HITS contains data that is automatically updated by interfacing with other electronic systems and data that is manually entered by Hiring Center personnel.
