NARA #: N1-567-12-1

The Financial Reporting Repository (FRR) is a web based application used by the U.S. Immigration and Customs Enforcement (ICE), Office of Financial Management (OFM) as a financial data analysis and reporting tool. FRR was developed and implemented in order to streamline the various processes that OFM personnel use to fulfill the mission of the office to collect, merge, analyze, and report on financial data. FRR provides OFM with enhanced tools and technology that reduce their manual processing of financial data.

Data gathered from the various sources is financial in nature (payments, receivables, costs, etc) and is organized by financial subject areas such as General Ledger (GL), Payment Management, Receivables Management, Cost Management, and Asset Management. This repository consists of current and historical detailed, structured, transaction data
