Balancing the government workforce requires determining the proper mix of Federal employees and contractors. The purpose of BWS is to: Achieve the appropriate mix of Federal and contractor skills, expertise, experience and other assets necessary to effectively achieve the Department's mission; Ensure that inherently governmental functions and unauthorized personal services are not performed by contractors; Dedicate an adequate number of Federal employees to the performance of critical functions or functions that are closely associated with inherently governmental such that the Department can maintain control of its mission and operations; Give consideration to using, on a regular basis, Federal employees to perform new functions and functions that are performed by contractors that could be performed by Federal employees (and Special Consideration to the use of Federal employees in those areas specifically identified by law); and Integrate management and planning activities to reduce risk to the Department's mission and promote improvements in the Department's economy, efficiency and performance.
