This request for immediate disposal covers various fragmentary series of Public Housing Administration records from the period 1913-1950. Further identification is provided on the thirteen (13) attached GSA Form 439s, Report of Disposition of Records. These largely unorganized and undescribed records evidently were transferred to the Federal Records Center system in 1951, without benefit of adequate box lists. Administrative/intellectual control over these records was evidently quite primitive. Departmental folklore holds that these records were relocated several times before they finally came to rest in the Federal Records Center system, that in the process many of them were spilled and re-packed in no discernible order, and that much of the original order (which evidently was rather primitive to begin with) was lost.

This request covers approximately 722 cubic feet of unnecessary records.

Appraisal, DHUD has agreed to divide this accession into permanent.
