RECORDS DISPOSITION SCHEDULE 68

OFFICE OF SINGLE FAMILY HOUSING

INTERSTATE LAND SALES REGISTRATION/REAL ESTATE SETTLEMENT PROCEDURES ACT (RESPA) COMPLIANCE TRACKING SYSTEM

The Department of Housing and Urban Development (HUD) is adding Schedule 68, Office of Single Family Housing Interstate Land Sales Registration/Real Estate Settlement Procedures Act (RESPA) Compliance Tracking System, to HUD handbook, 2225.6, HUD Records Disposition Schedules. The proposed new items will provide descriptions of records and disposition instructions for the RESPA electronic system.

These files are not used for financial matters related to HUD activities, therefore, GAO concurrence is not required.

See the attached Description of Records and Disposition Instructions for the electronic records of the Interstate Land Sales Registration/Real Estate Settlement Procedures Act (RESPA) Compliance Tracking System.
RECORDS DISPOSITION SCHEDULE 68

OFFICE OF MULTIFAMILY HOUSING

INTERSTATE LAND SALES REGISTRATION/REAL ESTATE SETTLEMENT

PROCEDURES ACT COMPLIANCE TRACKING SYSTEM

System Name: Interstate Land Sales Registration/Real Estate Settlement Procedures Act Compliance Tracking System ILSR P030

System Code: P030

System Description: Tracks complaints, and share and manage information regarding those complaints. The Real Estate Settlement Procedures Act (RESPA) is a consumer protection statute, passed in 1974. Automates the Previous Participation Clearance process, which is currently done by completing and processing of HUD Form 2530 – APPS/F24P. The F51A/ARRTS performs workload tracking, management and reporting of incoming application and recertification packages by mortgagees/lenders in conjunction with the F51/IMF. The system also provides for tracking on-site lender monitoring reviews. The 51A//ARRTS allows users to input and edit information on applications for mortgagees/lenders seeking approval for participation in FHA Single Family and Multifamily programs as well as their annual recertification. This allows for accurate tracking and reporting of the status of all applications. Similarly, users are able to input and edit information on reviews, which allows for accurate tracking and reporting of the status of reviews.
