The purpose of each prosecuting office's Giglio information system is not to duplicate what is kept in agency files, but rather to permit prosecuting offices to maintain a more organized, logical, and comprehensive filing system, searchable by the witness's or affiant's name, that allows prosecutors to more efficiently and effectively access and analyze relevant impeachment information about specific witnesses or affiants in order to make consistent decisions about the appropriate handling of the same potential impeachment information in different cases over time. Investigative units may maintain similar information systems to identify and consistently document the information provided to requesting prosecutorial officials. This series covers any tracking data that may be maintained by investigative units to document what information was provided in response to a request from a prosecuting Requesting Official. The Giglio system of records is separate and distinct from the system of records for criminal case files. Impeachment information within Giglio records systems may include: records of specific instances of witness conduct material to the witness's credibility or character for truthfulness; evidence in the form of opinions as to a witness's character or reputation for truthfulness; prior inconsistent statements; and information suggesting witness bias; written statements; human resources records; complaints from the public; police reports; and/or other disciplinary records. Impeachment files may also include internal investigation reports, and other negative credibility findings based on prior statements made under oath.</b> </p> <p data-bbox="370 1391 922 1423">Final Disposition                      <b>Temporary</b></p> <p data-bbox="370 1449 857 1481">Item Status                              <b>Active</b></p> <p data-bbox="370 1506 829 1538">Is this item media neutral?        <b>Yes</b></p> <p data-bbox="370 1564 829 1672">Do any of the records covered by this item currently exist in electronic format(s) other than e-mail and word processing?      <b>Yes</b></p> <p data-bbox="370 1698 829 1783">Do any of the records covered by this item exist as structured electronic data?                      <b>Yes</b></p> <p data-bbox="370 1808 1052 1874">GRS or Superseded Authority Citation      <b>N1-436-08-007 / 1/A N1-436-08-007 / 1/C</b></p> <p data-bbox="370 1910 675 1942"><b>Disposition Instruction</b></p>
