Department of Justice: Criminal Division Gambling Registration System (GRS)

The Gambling Devices Act of 1962 , 15 U.S.C §§ 1171-1178, requires registration by any person engaged in the business of manufacturing, repairing, reconditioning, buying, selling, leasing, using, or making available for use by others, any gambling device before any such device enters interstate or foreign commerce. Registration is required in writing each calendar year and is effective on the date it is received in the Department of Justice in proper form. The Gambling Registration System (GRS) is utilized to gather information regarding registrants, to provide statistical information gathered to assist foreign, federal, state and local law enforcement agencies in their investigations, as well as other purposes

1. Inputs

~~Registration must be received in writing each calendar year, after November 30th of the preceding year in which registration is desired, and must include the required information mandated by statute. The Department makes publicly available a form letter that can be used as a template for registration. While use of this form letter is not required, it is encouraged. Registrants may mail, fax or e-mail their requests to the Department. The information from registration letters is manually keyed into the system.~~

~~File and dispose of hard copy documents with applicable Class 159 files.~~

2. Master file

Required information for registration includes the registrant's name and any trade names under which business is done, address of each business location within the United States, address where required records are kept and can be viewed, and the activities registrant is to be involved in. The records are maintained in the system by registrant with each successive year's registration added to the same record.

Disposition: TEMPORARY, delete 7 years after close date.

3. Outputs

~~The GRS is set up with a variety of queries and reports available for searching the data. Queries include searching by name, activity, year, etc. Reports include date ranges, registration statistics, and inactive files. In addition the system produces several form letters, including response letters confirming registration and response letters indicating insufficient information.~~

~~Disposition: TEMPORARY, destroy when no longer needed. (GRS 20)~~

4. System Documentation

~~Disposition: TEMPORARY, delete/destroy when superseded or obsolete. (GRS 20)~~
