<td>The Chapter 11 Quarterly Fee Information Collection System (FICS) is an accounts receivable system that assists the USTP with the notification and collection of quarterly fees from the chapter 11 debtors and tracks this activity throughout the life of the case. Pursuant to 28 U.S.C. § 1930(a), every chapter 11 debtor (or debtor's representative) must pay a quarterly fee to the United States Trustee until the case is dismissed, converted, or closed by final decree.</td>

Department of Justice, Executive Office of U.S. Trustees: Chapter 11 Quarterly Fee Information Collection System (FICS)

1. Inputs

FICS receives case data from the USTP Automated Case Management System (ACMS). The information in FICS is refreshed continuously throughout the day to reflect changes made in the ACMS. In addition, the USTP field users are allowed to enter notes.

Chapter 11 debtors mail quarterly fee payments to a single bank address which are processed electronically through the Department of Treasury’s lockbox service provider. The USTP receives a daily download of these electronic transactions which are electronically posted to FICS. Manual adjustments to the transactions are made by the Program’s Accounts Receivable Manager, as required.

Disposition: TEMPORARY, delete/destroy after data has been successfully captured, entered, and verified in FICS and is no longer needed.

2. Master File

FICS captures relevant case information including case number, debtor/company name, debtor social security number(s), company EIN, debtor addresses, debtor attorney name, trustee assigned, and assigned judge along with the accounts receivable activity for the case with respect to the quarterly fees and payments, and the debtor’s disbursement activities.

Disposition: TEMPORARY, cut off when case is closed and has a zero balance. Destroy/delete 20 years after cutoff.

3. Outputs

FICS has various status reports for staff to track fee payments and case activity. Monthly data files are provided to the USTP contractor for statement mailings.

Disposition: TEMPORARY, destroy/delete when no longer needed for business purposes.

4. System Documentation

Disposition: TEMPORARY, destroy/delete when superseded or obsolete

Exception to CRS 20.01
