ACTION TAKEN

The Tax Division automated its Classification Locator Unit (CLU) in February 1982. This automation enabled CLU to research all incoming mail and to create new cases when necessary. When a new case is created, a docket card is generated by the computer and appended to the mail. The three-month parallel test is now complete and the manually generated record card (Form OBD-176) can be eliminated. This card was created for all cases and matters, and as a secondary cross-reference source. The computer files now contain the same information.

Form OBD-176, Record Card. Copies of the OBD-176 that currently exist on the computer or on the older CLU cards. Approximately 15 cubic feet. 1967 - 2/1982.

Disposition: DESTROY IMMEDIATELY.
