<p>weekly Planning and Evaluation (eff. 16 Feb 88)</p>	<p>Community Relations Service (CRS) Machine Readable Records</p> <p>Operational Data Information Systems (ODIS) Records</p> <p>The Operational Data Information System (ODIS) was originated in 1978 to provide in computerized and hard copy format, a management information system of the cases in the regions for the Director, Associate Directors and Regional Directors. This involves the recording, reporting, analysis and distribution of the data to accomplish the goals and objectives of CRS. Headquarters ODIS files are located in the Office of Policy Development. The information is transmitted daily by Lexitron from the regional offices. ODIS consists of the collecting and processing of two levels of data (1) primary data descriptive of field experiences (2) derivative reports which summarize, review or analyze the primary data.</p> <p>PRIMARY DATA, after being transmitted to headquarters, is stored partly in the computer and partly in the case files. The Progress Report on Operations (PRO) reports, when received from the regional offices, are printed by the Data Control Desk (DCD) to hard copies for the case files. The DCD then transmits them to the computer where the statistical data is stored. Narrative data is converted into a printout of the weekly summary of case progress. The computer does not store narrative data.</p>	<p>Agency representative <i>Bernard W. England</i> Date 02/23/88</p> <p>CRS Representative <i>Vivial Gladden</i> Date 2/23/88</p>	<p>NARA representative <i>Thomas J. Starn</i> Date 4/2/88</p>
