LMSA RECORDS SCHEDULE No. 14

The Office of Construction Industry Services (OCIS), a component of the Labor-Management Services Administration, advised the Assistant Secretary in recommending operational policy, plans and programs in the areas of collective bargaining structure, wage and fringe benefits, Labor-Management issues and problems of national concern in the construction industry. In performing these functions, collective bargaining agreements from the construction industry were collected and statistical data compiled to provide information to the Assistant Secretary, the construction industry and to educators. This information is used by the construction industry as a guide to set working conditions, wages and benefits for future construction bargaining agreements. Educators use this data to indicate trends and to provide historical analysis of the construction industry. OCIS provided the most extensive source of this type of information.

The Office of Construction Industry Services was abolished on January 15, 1982. This schedule pertains to the disposition of construction bargaining agreements and related records housed in the OCIS National and Field Offices.

STANDARD FORM 115
Revised April, 1975
Prescribed by General Services Administration
FPMR (41 CFR) 101-11.4
1. Collective Bargaining Agreements

OCIS received, from the major trade unions in the construction industry, a copy of collective bargaining agreements for construction contracts let. These agreements contain the geographic location of the contract, working conditions that have been established for the employees and the type of work or crafts that the project entailed. The agreement will also indicate wages and benefits to be provided for the employees, as well as other related information.

These records are stored in the OCIS fileroom in the National Office, located at:

200 Constitution Avenue NW
Room N5411
Washington, DC 20216

The records are filed by state then by craft within state.

Disposition

These files may be destroyed as of January 15, 1982, which was the abolishment date of the Office of Construction Industry.
