1.	<p><u>Chargeback Master Files-Worldwide</u></p> <p>The Employment Standards Administration pays benefits to all Federal Employees who sustain injuries while working. Certain benefits, stated in Section 8147(b) of Title 5 USC, are reimbursable to ESA by the employing agency. These master files list the claimants whose benefits are reimbursable. They are our only records of personnel on our rolls at the end of a given year and must be kept for audit purposes. The data elements contained in these files are claimant's case number, initiating district, pay district, date of injury/death, case type, effective date of the last plate action and amounts. There are approximately 100 reels of files.</p> <p>Date of File: <u>Series starts 3/74 and ends in 3/82.</u></p> <p>Location, Description of Facility: <u>Optimum Systems, Inc. This bill gives the amount of benefits paid by the Department of Labor on the behalf of their agency for the year. One of the files used in the calculation of this bill is the detail payment file. This file shows the date and the amount of each payment to each claimant for the year. These files are needed as a detailed backup for audit purposes and to help solve questions agencies have about their bill.
