3. RESEARCH DATA COLLECTION SURVEY PROJECTS FILES

The designations in this series are based on the last two digits of the Office of Research Data Set Naming Convention, described below. The files include the basic data file (or information on location) as well as all supporting documentation. The supporting documentation for each data collection project includes procurement documents such as copies of contracts, agreements, modifications, and changes, etc; questionnaires (foreign and English language versions); code books; a record layout and codes that match the format of the data that is transferred to the National Archives; description of sampling method; interview and field instructions; basic data file (or information on location); reports on pilot study or pretest and final data book, tabulation, or contractor report or final draft if no final report issued.

Both the dataset name on the tape and the name for the paper file of supporting documentation will follow the naming convention of Iyynnn.accaa where:

"I" is the required ADP leading alpha character for State Dept.

"yy" is the last two numbers of the fieldwork year;

"nnn" is a three digit sequential number, unique for each project in the year;

"." is a decimal point;

"a" denotes type of data: single punched (s) or multi-punched (m);

"cc" is a two digit alpha code designating the country in which the data collection takes place;

"aa" is a two letter alpha code called "KOS" (kind-of-study), designating the general substance of the research project. Group A, for Attitude (or Opinion) Study, includes AG (General publics-national, regional, or urban), AS (Exhibit visitors, refugees), AT (Target groups, elite, educated), AU (Public diplomacy, posts), AY (Youth, students), AX (Mixed publics, general and other separate samples combined), and AZ (Any other attitude or opinion data collection project). All must have been done on contract (or some other financial arrangement) by other than State staff. Each file contains the complete history of the study including final project plan; authorization documents; procurement documents; correspondence relating to changes, execution, and completion of research contracts; and, final contractor report, or last draft if no final report was issued.

PERMANENT. Cut off at the end of the calendar year. Transfer files to the National Archives every two years (i.e., in two year blocks).
