From: P. Dian Palmer, NWME
Subject: N1-059-09-2

Thank you for the opportunity to provide informal comments on the appraisal of the mainly media neutral schedule (N1-059-09-2) for the records submitted by the Department of State (DOS) Bureau of Overseas Buildings Operations, Office of Operations. According to the appraisal report, the agency did not request media neutral for one item, (Item 7: Publications-Art-in-Embassies Programs) on this schedule.

There are 27 items on the DOS schedule; NWML crossed out 14 items either because an item consists of non-record material or items are covered by the General Records Schedule. NWML recommends that Item 13, Tracking and Control Records - - Integrated Fire Application Information System be removed from the schedule since this item is no longer in use and it is in the process of being subsumed into another system. There is one item (Item 7) on the schedule that NWML states that the appropriate disposition should be permanent. Item 7 describes booklets and as stated above, DOS did not request media neutral for this item.

Once DOS revises their media neutral schedule, there will be 11 items that have temporary dispositions listed. We agree with NWML's appraisal analysis that these record items do not warrant long-term preservation, since these items have limited research value and do not document significant actions of DOS officials.

I recommend that NWME concur with the appraisal report covering N1-059-09-2.

INTRODUCTION

Schedule Overview

This job covers records of the Bureau of Overseas Buildings Office of Operations.

Administrative History

The Bureau of Overseas Buildings Operations (OBO) directs the worldwide overseas buildings program for the Department of State and the U.S. Government community serving abroad under the authority of the chiefs of mission. In concert with other State Department bureaus, foreign affairs agencies, and Congress, OBO sets worldwide priorities for the design, construction, acquisition, maintenance, use, and sale of real properties and the use of sales proceeds.

The Office of Operations (OPS) serves as the overseas posts' point of contact within OBO. OPS is dedicated to the design, acquisition, installation, maintenance and preservation of official residences of Ambassadors, DCMs and Consul General at posts. OPS provides procurement, tracking and shipment information for all Chief and Deputy Chief of Mission residents, New Embassy Compounds (NEC's), the Overseas Office Furniture Program and Representational Supplies. OPS also provides fire protection services, safety, health, and environmental management services. OPS manages this program through its three divisions: Area Management, Fire Protection, and Safety, Health and Environmental Management.
