1. Adoptions Tracking Service (ATS)

Description: ATS is an electronic information system designed to track, monitor, and report on all adoption cases involving emigration from or immigration to the U.S. as mandated by the Inter-country Adoption Act of 2000 (IAA). Activities include monitoring organizations that provide inter-country adoption services, responding to adoption-related inquiries from the public and other interested stakeholders, reporting to Congressional representatives on inter-country adoptions involving U.S. citizens, producing mandatory annual reports to Congress, and communicating with all inter-country adoption stakeholders.

ATS supports the U.S. Central Authority for Inter-country Adoptions (USCA), which has inter-country adoption-related responsibilities involving U.S. citizens. The IAA designated the Department of State as U.S. Central Authority for Inter-country Adoptions under the Hague Adoption Convention. The day-to-day work of the U.S. Central Authority is the responsibility of the Bureau of Consular Affairs, Directorate of Overseas Citizens Services, Office of Children's Issues (CA/OCS/CI).

ATS records include the following types of information: unique identifier, case status and tracking information, application information, adoptive parent information, child information, Hague Convention documentation, inquiry and complaint information, and adoption agency information.

Disposition: Temporary. Cut off at end of calendar year when adoption case closes. Destroy 75 years after adoption case closed.
