7554 NBC Datamart. NBC Datamart is a data warehouse environment using an Oracle Records Database Management System and a variety of web-based applications for front-end access. The system is populated with source data from FPPS, FFS, agency managed data, agency historical HR/pay data, casual hire data, DOI charge card data, and other auxiliary data. The NBC Datamart provides off-line access to data through its core product and other customized auxiliary applications designed to serve the particular needs of individual clients.

7554.1 Datamart Routine Data Files. Contains historical payroll and transactions data from FPPS and other sources used for day-to-day reference, compilations of statistical data, exporting data, creating reports and presentations, and performing other routine functions that existing systems are ill-suited or unable to do.

Disposition: Temporary. Cut off files at end of pay year. Destroy 30 years after cut-off.

7554.2-7554.10: Auxiliary Systems.

These files include all records generated for the servicing of a specific client to NBC Datamart and their particular requirements for such data.

7554.2 Bank Card Training. Bank Card Training is a web-based computer training application that allows DOI charge card holders to register and take mandatory credit card training. This system assists with administering and monitoring department-wide training. This data is to be retained the same period as the Charge Card Report Distribution System 7554.3, both of which match the GSA Smart Pay Program which administers the charge card program for the federal government.

This application was developed for NBC's Charge Card Support Center.

Disposition: Temporary. Cut off records when training is complete. Destroy 10 years after cut-off.

7554.3 Charge Card Report Distribution System (CRDS). CRDS is a web-based tool used by DOI management and financial administrators for reporting charge card transactions. This system assists with quality assurance, financial forecasting, and fraud tracking when reviewing credit card transactions.

This application was developed for NBC's Charge Card Support Center.

Disposition: Temporary. Cut off records at end of fiscal year. Destroy when 10 years old.

7554.4 Executive Information System (EIS). EIS is a web-based tool used by NBC management for tracking and managing information about NBC products and services. This system assists with tracking customer products and services.

This application was developed for the NBC.

Disposition: Temporary. Cut off at close of calendar year in which product or service is no longer in use. Destroy 1 year after cut-off, or when no longer needed (whichever is later).

7554.5 Indirect Cost System (ICS). ICS is a web-based tool used for managing indirect cost proposals (ICP) submitted to DOI by non-Federal entities wishing to recover indirect costs incurred for the operation and administration of Native American organizations. This system allows staff to monitor the progress of ICPs from submission to the final issuance of the negotiated rate and to perform historical research.

This application was developed for NBC's Indirect Cost Section.

Disposition: Temporary. Cut off files at end of fiscal year. Destroy 20 years after cut-off.

7554.6 Inter-Governmental Personnel Act (IPA). IPA is a web-based tool used by HR staff for tracking inter-governmental personnel assignments. Developed for the National Science Foundation (NSF), it allows this client to input and report on both incoming and temporary assignments that exist between NSF and other agencies. While assignment details are managed through this application, master employee and position records are updated through file updates from FPPS.

This application was developed for the National Science Foundation (NSF).

Disposition: Temporary. Cut off at the end of the year in which assignment is finished. Destroy 30 years after cut-off.

~~**7554.7 Position Control System (PCS).** PCS is a web-based tool used by HR staff for managing position data outside of FPPS. Initially developed for the Security Exchange Commission (SEC), it allows this FPPS client to input and report on position data. While position details are managed within this system, master employee and position records are updated through file updates from FPPS.~~

~~This application was developed for the Security Exchange Commission (SEC).~~

~~Disposition: Temporary. Cut off when position is abolished or superseded. Destroy 5 years after cutoff. (GRS 1-7a2a)~~

7554.8 Procurement Tracking System (PTS). PTS is a web-based tool used by the Dept. of Interior/NBC Acquisitions offices. The system assists with the tracking and management of procurements.

Disposition: Temporary. Cut off files when procurement is finished. Destroy 6 years and 3 months after cut-off. (GRS 3-3c, extended retention)

*Covered by
GRS 1-7a2a*

7554.9 Web Survey. Web Survey is a web-based tool available for all NBC projects and external clients. It allows administrators to develop surveys and publish online surveys for any purpose. Input is provided with anonymous access with back-end reporting.

Disposition: Temporary. Cut off when survey is concluded. Destroy 1 year after cut-off, or when no longer needed for agency business.

7554.10 Equal Employment Opportunity / Management Directive 715 (EEO/MD715). EEO/MD715 is a web-based application used by all NBC clients to produce EEOC compliant reports for the MD-715 Directive. These reports complement the standard NBC Datamart EEO Reporting catalog which is also available to all EEO role based users.

Disposition: Temporary. Cut off files when report is finalized. Destroy 10 years after cut-off.
