Forest Resources Information System
~~Timber Sale Information System (TSIS)~~

Description of System:

see page 3

~~This system supports timber sale accounting, management, and activity tracking and tracking of Special Forest Product (SFP) sales and permits. TSIS provides direct support to BLM Mission Goals 2.4.01 and 2.4.02 related to managing the use of forest and woodland products in the Public Domain (PD) and in the Oregon and California Lands (O&C). TSIS is the sole automated process to track timber sale and special forest product activity and accomplishments, and it is the sole source for validation of timber sale and special forest product revenues in the BLM's financial system. This system was previously known as the Timber and Material Sales Database and scheduled under N1-049-90-1, which is superseded by this schedule.~~
