Rangeland Administration System (RAS)

Description of System:

The Rangeland Administration System (RAS) provides grazing administrative support and management reports for the BLM and the public. RAS is an electronic database which serves as an electronic calendar for issuance of approximately 18,000 applications and 2,400 grazing authorizations (Permits, Leases, and Exchange-of-Use Agreements) per year. The system provides access to the public online (<http://www.blm.gov/ras/>) and creates approximately 30,000 grazing bills per year. BLM uses RAS to provide distribution information to the Collections and Billings System (CBS) for tracking, collecting, and distributing grazing receipts. Additionally, the system maintains electronic files about allotments, authorizations, and grazing bill history.

Reports generated in RAS primarily contain two types of information, allotment information and operator information. Metadata regarding allotments includes allotment identification, size, amount of private, state and public land administered, amount of forage use authorized, both active and suspended, for all operators using the allotment, proportion of forage in the allotment produced on public land, existence of an allotment management plan and identification of the grazing operator(s). Metadata regarding operators includes authorization number, name, address and date the authorization was issued, including expiration date, allotments used by operator, kind and number of livestock, and period of use and forage amount authorized for use by the operator. The public website for RAS allows users to generate a variety of on-demand reports, including Allotment Information, Allotment Master, Authorized Use by Allotment, Operator Information, Permits Schedule Information, and Public Land Statistics.

1.a. Master File. The Rangeland Administration System (RAS) provides online public access to grazing allotment and operator information for Federal lands in the Public Land States of the Western United States. The system serves as an electronic calendar for issuance of applications and grazing authorizations (Permits, Leases, and Exchange-of-Use Agreements), grazing bills, and reports about allotments, authorizations, and grazing bill history.

Disposition: **PERMANENT**

Transfer a copy of the master file to NARA upon approval of this schedule, along with the technical documentation, in accordance with 36 CFR 1235 44-50 Thereafter, transfer a copy every 5 years, along with the current technical documentation
