Lands and Realty Authorization Module (LRAM)

Description of System:

The Lands and Realty Authorization Module (LRAM) generates and manages land and realty action records and billing information for all Rights-of-Way and other public lands and realty authorizations. The system includes special use authorizations, leases, permits and communication site rental calculations. Section 302 of the Federal Land Policy and Management Act of 1976 (FLPMA) provides the BLM's authority to issue leases and permits for the use, occupancy, and development of the public lands. Leases and permits are issued for purposes such as a commercial filming, advertising displays, commercial or noncommercial croplands, apiaries, livestock holding or feeding areas not related to grazing permits and leases, harvesting of native or introduced species, temporary or permanent facilities for commercial purposes (does not include mining claims), residential occupancy, ski resorts, construction equipment storage sites, assembly yards, oil rig stacking sites, mining claim occupancy if the residential structures are not incidental to the mining operation, and water pipelines and well pumps related to irrigation and non-irrigation facilities. The regulations establishing procedures for the processing of these leases and permits are found in 43 Code of Federal Regulations (CFR) 2920.

1.a. Master File. The Lands and Realty Authorization Module (LRAM) generates and manages land and realty action records and billing information for all Rights-of-Way and other public lands and realty authorizations. The system includes special use authorizations, leases, permits and communication site rental calculations.

Disposition: **PERMANENT**

Transfer a copy of the master file to NARA upon approval of this schedule, along with the technical documentation, in accordance with 36 CFR 1235.44-50. Thereafter, transfer a copy every 5 years, along with the current technical documentation.
