

# NOTICE - SOME ITEMS SUPERSEDED OR OBSOLETE

Schedule Number: NC1-049-85-01

Some items in this schedule are either obsolete or have been superseded by new NARA approved records schedules. This information is accurate as of: 4/16/2021

## **ACTIVE ITEMS**

These items, unless subsequently superseded, may be used by the agency to disposition records. It is the responsibility of the user to verify the items are still active.

All approved schedule items are active except the ones listed below

## **SUPERSEDED AND OBSOLETE ITEMS**

The remaining items on this schedule may no longer be used to disposition records. They are superseded, obsolete, filing instructions, non-records, or were lined off and not approved at the time of scheduling. References to more recent schedules are provided below as a courtesy. Some items listed here may have been previously annotated on the schedule itself.

Item 24 is superseded by DAA-0048-2013-0001-0004

Item 29 is superseded by DAA-0048-2013-0001-0001

Item 30 is superseded by DAA-0048-2013-0001-0004

Item 35 is superseded by N1-049-96-006 Item 20d

## 1271 - RECORDS MANAGEMENT SYSTEM

RECORDS CATEGORY: Q

## MACHINE-READABLE RECORDS

| ITEM NO. | NAME AND/OR DESCRIPTION OF RECORDS  | RETENTION PERIOD |     |      | DISPOSITION   |
|----------|---|------------------|-----|------|---|
|          |   | LOCAL            | FRC | NARS |   |
| 1        | ADOPT-A-HORSE SYSTEM (HB)<br>Data on applicants (e.g., name, address, phone, etc.) animals (number requested, breed, age, sex, etc.) and cooperative agreements (adopter's name, address, phone, and driver's license number and animal sex, age, color and freeze mark). Produces animal availability letters to applicants, title notices and title applications to adopters when eligible and summary reports of applicants, adopters and animals. | I                | 0   | 0    | Destroy individual data elements when superseded or no longer needed for administrative purposes. |
| 2        | CORRIDOR ENVIRONMENTAL IMPACT STATEMENT (EI)<br>Produces tabular report of milepost information for use in preparing environmental statements.  | I                | 0   | 0    | Destroy individual data elements when superseded or no longer needed for administrative purposes. |
| 3        | ECOLOGICAL SITE INVENTORY (ES)<br>Soil and vegetation data including ground cover, erosion ratings, vegetation production, plant characteristics and ecological condition and trend. Produces variety of reports, including allotment data for management alternative analysis, wildlife habitat and watershed purposes. Formerly SVIM.   | I                | 0   | 0    | Destroy individual data elements when superseded or no longer needed for administrative purposes. |
| 4        | FOREST MODELS (PM)<br>Consists of two models:<br><br>-Allowable Cut Simulation (SIMIX)<br>An independent forest growth and yield modeling system using management and policy decisions, forest inventory data, statistical analysis programs and economic analysis data to determine timber harvest.  | I                | 0   | 0    | Destroy individual data elements when superseded or no longer needed for administrative purposes. |

|   |   |   |   | p' |   |
|---|---|---|---|----|---|
| 3 | <p>ECOLOGICAL SITE INVENTORY (ES)</p> <p>Soil and vegetation data including ground cover, erosion ratings, vegetation production, plant characteristics and ecological condition and trend. Produces variety of reports, including allotment data for management alternative analysis, wildlife habitat and watershed purposes. Formerly SVIM.</p>  | I | 0 | 0  | Destroy individual data elements when superseded or no longer needed for administrative purposes. |
| 4 | <p>FOREST MODELS (PM)</p> <p>Consists of two models:</p> <p>-Allowable Cut Simulation (SIMIX)</p> <p>An independent forest growth and yield modeling system using management and policy decisions, forest inventory data, statistical analysis programs and economic analysis data to determine timber harvest.</p> <p>-Timber Stand Projection (PROGNOSIS)</p> <p>Projects growth and yield of individual timber stands in the Northern Rocky Mountains. Allows simulation of short and long range land and timber strategies.</p>   | I | 0 | 0  | Destroy individual data elements when superseded or no longer needed for administrative purposes. |
| 5 | <p>FOREST UTILITY PROGRAMS (PU)</p> <p>Includes the following 7 models:</p> <p>-IVST</p> <p>Produces three reports: Cost/benefit, present net worth and interval rate of return. Used to examine long range investment opportunities for forest and other natural resource alternative management strategies.</p> <p>-Polynomial Regression Program</p> <p>Produces straight line or curved line function and generates equations.</p> <p>-Stepwise Regression</p> <p>Allows users to statistically analyze variable attributes of up to 200 field samples. The correlation coefficients of up to 80 variables can be tested.</p> | I | 0 | 0  | Destroy individual data elements when superseded or no longer needed for administrative purposes. |

## 1271 - RECORDS MANAGEMENT SYSTEM

RECORDS CATEGORY: Q

## MACHINE-READABLE RECORDS

| ITEM NO. | NAME AND/OR DESCRIPTION OF RECORDS   | RETENTION PERIOD |     |      | DISPOSITION   |
|----------|--|------------------|-----|------|---|
|          |  | LOCAL            | FRC | NARS |   |
| 5        | (Continued)  |                  |     |      |   |
|          | -STRAT<br>Tests results of a stratified random sampling procedures (originally developed for Ecological Site Inventory).   |                  |     |      |   |
|          | -HISTO<br>Produces a horizontal histogram from any data file. User enters name and file description interactively.   |                  |     |      |   |
|          | -Cost/Benefit Programs<br>Interactive programs to test short and long range investment opportunities.  |                  |     |      |   |
| 6        | HEALTH RISK APPRAISAL PROGRAM (HR)<br>Provides DSC employees with information on improving their personal health and life expectancy based on responses to a confidential questionnaire.   | I                | 0   | 0    | Destroy individual data elements when superseded or no longer needed for administrative purposes. |
| 7        | JOB DOCUMENTATION REPORTING (JD)<br>Provides a uniform method for documenting and entering jobs into the AWP. Periodically produces reports which reflect inventory of jobs, current status, progress and maintenance schedules. | I                | 0   | 0    | Destroy individual data elements when superseded or no longer needed for administrative purposes. |
| 8        | MATERIAL SALES (MS)<br>Processes and maintains timber, vegetal and mineral disposals (includes sales and free use authorizations). Volumes, products, financial data and user identification are recorded to                     | I                | 0   | 0    | Destroy individual data elements when superseded or no longer needed for administrative purposes. |

| 7 | <p><b>JOB DOCUMENTATION REPORTING (JD)</b><br/> Provides a uniform method for documenting and entering jobs into the AWP. Periodically produces reports which reflect inventory of jobs, current status, progress and maintenance schedules.</p>   | I | 0 | 0 | Destroy individual data elements when superseded or no longer needed for administrative purposes. |
| 8 | <p><b>MATERIAL SALES (MS)</b><br/> Processes and maintains timber, vegetal and mineral disposals (includes sales and free use authorizations). Volumes, products, financial data and user identification are recorded to produce periodic reports. Statistical reports for Congress produced end of FY.</p>  | I | 0 | 0 | Destroy individual data elements when superseded or no longer needed for administrative purposes. |
| 9 | <p><b>PUBLIC DOMAIN FOREST INVENTORY SYSTEM (PD)</b><br/> Computer-sensible data gathered since 1971 on commercially valuable BLM forest lands in 11 western states. Information is used to develop timber harvesting plans which allow for an even flow of wood products to industry. Includes:</p> <p style="padding-left: 40px;">-PD Master (Tree File)<br/> Identifies one acre sample plots and provides detailed information on growth, mortality, and physical characteristics of approximately 5 trees per plot.</p> <p style="padding-left: 40px;">-Photo Interpretation Reference File<br/> Contains descriptive characters for each photo point to allow a comprehensive view of each resource planning area.</p> | I | 0 | 0 | Destroy individual data elements when superseded or no longer needed for administrative purposes. |

and generate tabular and graphic reports for determining intensive management programs on site specific areas. System can be operated by field users by timesharing.

- Nevada Tree Data Subsystem

Primarily designed for pinon-juniper woodlands of Utah and Nevada. Allows field personell to load, edit and selectively output data.

(3) Stand Summary Subsystem

Edits and stores data from several stand data forms (not limited to timber). Updated as forest ages or land use changes. REX system produces consolidations and summaries.

10 RANGE MANAGEMENT AUTOMATED SYSTEM (RM)

Identifies individual permittee and lessee and maintains geographical, biological, planned use, and fee collection data for grazing activities on BLM and BLM-administered lands. Periodic administrative support and management reports (including billings) are produced.

deposits and debit vouchers with Treasury net total of deposits and debit vouchers, and provides capability to reconcile the differences.

- Financial Management Edits (FE)  
Edits and validates financial management transactions prior to their processing and application against various FM master files.
  
- Financial Management Reports (FR)  
Series of reports providing monthly and year-to-date cost and income related data at office, state and Bureau levels.
  
- Financial Management Year-End Processing System (FY)  
Provides means of closing current FY accounts, carrying certain monetary amounts forward, and accomplishes necessary code conversions for new FY master files.
  
- General Ledger System (FG)  
Provides periodic General Ledger and Working Capital Fund summaries and reports.
  
- Imprest Fund (FI)  
To verify increases in fund balances and to review each imprest fund.
  
- Perpetual Inventory (FP)  
Maintains on-going inventory of payable accounts and financial obligations.
  
- Reimbursable Billings(FJ)  
Provides means of billing agencies and public for reimbursable services provided by BLM. States offices are provided memos regarding projects that are over obligated.

|             | - Special Projects (FO)<br>Provides reports of costs for selected projects and subactivities (e.g., rights-of-way and conveyance of federally-owned mineral estates).            |                  |     |      |   |
|             | - Travel Advance System (FT)<br>Provides reports of travel advance accounts and account status.  |                  |     |      |   |
|             | - Annual Work Plan Budget (FW)<br>Provides year-to-date reports on a monthly basis re. current status of operating budget, procurement plan, AWP progress, etc.                  |                  |     |      |   |
|             | - Payroll Costs (FB)<br>Provides year-to-date information on payroll costs. Collates and edits payroll data into a format which interfaces with the Financial Management System. |                  |     |      |   |
|             | - Program Management(E)<br>Provides reports reflecting year-to-date workmonths and dollars planned and expended.   |                  |     |      |   |
|             | - Status of Obligations Reporting (FW)<br>Provides reports showing year-to-date comparison of workmonths expended versus budgeted, by activity.                                  |                  |     |      |   |
| 22          | MINING CLAIMS (MCR)<br>Provides information on mining claims within jurisdiction of 10 BLM states; a DMIV data base resident system, accessed and up-                            | I                | 0   | 0    | Destroy individual data elements when superseded or no longer needed for administrative purposes. |

- Payroll Costs (FB)

Provides year-to-date information on payroll costs. Collates and edits payroll data into a format which interfaces with the Financial Management System.

- Program Management(E)

Provides reports reflecting year-to-date workmonths and dollars planned and expended.

- Status of Obligations Reporting (FW)

Provides reports showing year-to-date comparison of workmonths expended versus budgeted, by activity.

|    |   |   |   |   |   |
|----|---|---|---|---|---|
| 22 | <b>MINING CLAIMS (MCR)</b><br>Provides information on mining claims within jurisdiction of 10 BLM states; a DMIV data base resident system, accessed and updated via DMIV Transaction Processor. Reports include MC index and wilderness study. | I | 0 | 0 | Destroy individual data elements when superseded or no longer needed for administrative purposes. |
| 23 | <b>SIMULTANEOUS OIL AND GAS (SIMO)</b><br>Data capture and processing of SIMO applications. Provides drawing results, refunding and other administrative reports in support of drawings held bi-monthly.  | I | 0 | 0 | Destroy individual data elements when superseded or no longer needed for administrative purposes. |
| 24 | <b>SUMMER HIRE SYSTEM (SH)</b><br>Provides Division of Personnel with system that accepts applicants for summer hire. Produces various state personnel rosters, edit lists and letters to applicants.   | 1 | 0 | 0 | Destroy data 1 year after its creation.   |
| 25 | <b>WILDFIRE REPORTING SYSTEM (FDR-AFFIRMS)</b><br>Collects, edits and stores fire control and location, date and total fire damage data for statistical reporting and analysis.   | I | 0 | 0 | Destroy individual data elements when superseded or no longer needed for administrative purposes. |

## RECORDS CATEGORY: Q

## MACHINE-READABLE RECORDS

| ITEM<br>NO. | NAME AND/OR DESCRIPTION OF RECORDS  | RETENTION PERIOD |     |      | DISPOSITION   |
|-------------|---|------------------|-----|------|---|
|             |   | LOCAL            | FRC | NARS |   |
| 26          | FIRE COSTS REPORTS (FF)<br>Maintains data and statistics on range and forest fires, and produces reports of related cost data. Information is abstracted from FDR-AFFIRMS (Item Q-25).  | 3                | 0   | 0    | Destroy 3 years after end of FY in which data prepared.   |
| 27          | AUTOMATED MANAGEMENT BY OBJECTIVES (MBO)<br>Centralized file of information related to organizational objectives. Provides the capability to edit, update and retrieve information and produce various reports.   | 1                | 0   | 0    | Destroy 1 year after end of FY in which data prepared.  |
| 28          | BUDGET MATRIX (WBO)<br>Provides capability for automating any data spreadsheet not exceeding 100 rows X 100 columns or 55 rows X 50 columns. Supports annual and mid-year budget formulation.   | 1                | 0   | 0    | Destroy data 1 year after end of FY in which data prepared.                                       |
| 29          | MOTOR VEHICLE SYSTEM (AM)<br>Maintains accounting and utilization data on BLM-assigned motor vehicles.  | 3                | 0   | 0    | Destroy 3 years after end of FY in which data prepared.   |
| 30          | PAYROLL/PERSONNEL (FB/MP)<br>Handles all time/attendance data input biweekly to calculation of pay, producing report of control totals used by DSC Payroll to verify payroll accuracy. On the BLM computer, keyed T&As are processed, edited, balanced, reformatted and written to magnetic tape for input to PAY/PERS. System also receives output data from PAY/PERS in form of 3 files: MSTFIL (Paymaster), POSNMST (Position Master) and COSTFIL (biweekly labor cost). Produces reports to DSC Payroll and Personnel; also provide pay and cost data to Financial Management System. In addition, BLM maintains 9 programs on Bureau training. Includes: | 1                | 0   | 0    | Destroy individual data elements when superseded or no longer needed for administrative purposes. |
