ELECTRONIC RECORDS SCHEDULE

Draft Request for Records Disposition Authority, attachment to SF 115
N1-075-06-5
August 31, 2005

Land Title Mapper (LTM) System Description:

The Land Title Mapper contains information from 1997 through the present. The system stores geographic databases and provides a simple interface for producing standardized trust land status maps of Indian Country.

The data contains trust parcel boundaries, represented as polygons that have spatial coordinates, identifiers and other associated attribute data. The parcels are organized by reservation, and the parcels for a reservation are further organized in by region. Authorized users can request five varieties of maps for specified reservations.

The original database creation took place in 1997-1999 for four regions. Database creation and updates are currently taking place. Once all databases have been created, the update cycle might get down to 1-3 months.

Files are generally stored by reservation in directories that are further organized by BIA region.

a. Inputs:

The inputs to the system include: background geographic data gathered from various map source and parcel information produced from LRIS database downloads.

Disposition: Apply disposition instructions approved for paper and microfilm records.

b. Master Data Files:

The master data file contains attribute fields for all geographic data layers. These data layers are organized by reservation and have metadata which describe the attributes and the spatial data, the source, date, geographic projection, methods of creation, and applicable data standards.

Disposition: PERMANENT. Create duplicate copy of records off-line and physically transfer to the National Archives upon approval of this schedule in accordance with NARA instructions and guidance. Subsequent legal transfer of the records will be as jointly agreed to between DOI and NARA, in accordance with regulations currently cited in 36 CFR 1228.270.

ELECTRONIC RECORDS SCHEDULE

Data restricted in accordance with Privacy Act Notice: Indian Individual Monies Trust Funds-OS-02 (previously Individual Indian Monies—Interior, BIA—3); Indian Land Records —Interior, BIA—4; Indian Land Leases—Interior, BIA—5.

c. Outputs:

Case file specific queries, sorts, reports, tables and related records and data compilation reports (e.g., management reports and plans) that are created for case files, studies, inquiries, inspections, and related program files.

Disposition: Apply disposition instructions approved for paper and microfilm program records.

d. Documentation

System Data specifications, file specifications, code books, record layouts, user guides, output specifications, final reports, regardless of medium, relating to a master file or data base.

Disposition: PERMANENT. Transfer to the National Archives with Master Data File identified in item b above.
