TR-6202-P5 Appraisal Request System

Contents: The Appraisal Request System(s) provide Indian Trust land appraisal request case file status tracking capabilities to Indian Affairs employees and users from tribes and other government offices. At this time, appraisal request systems include Appraisal Tracking System (ATS), Alaska Appraisal Tracking System (AATS) and the Indian Trust Appraisal Request System (ITARS). This system list may change or expand.

The application(s) are designed to follow an appraisal request electronically, from assignment to completion, allowing users to initiate and track the request in all stages of the process. The systems supply statistical capability, standardize the submission of requests and offer a number of search variables, while improving management of appraisal activities.

System users key in the appraisal request's information; the specialist conducting the appraisal, the name of the requestor (Tribes, a consortium or agency personnel) and contractor information. Information maintained in the appraisal tracking system are appraisal requests, land information, appraisal data, appraisal award information, appraisal amounts estimates and requestor data. A history of the appraisal request case file processing is created and a variety of appraisal requests management reports are compiled such as a report on appraisal backlogs complete with count and an indication of time frames.

a. Input Files

~~The inputs to the system include Name of requestor data, townsite data, allotment data, legal description and tract data, assigned appraiser and reviewer information, dates appraised, market value information, land usage data, inspection data, location codes, award dates, appraisal estimates, contractor data, sales data and report data.~~

~~**Disposition Instructions:** Apply disposition instructions approved for paper and microfilm records.~~

Data restricted in accordance with Privacy Act Notice as required.

[Item TR-6202-P5a, Inputs, is not a request for disposition authority rather instructions to use existing disposition authorities without superseding them.]

b. Master Data Files

The Appraisal Request System's database(s) are compiled logically in tables containing appraisal service and real property data. Information/data captured within the Appraisal Request Tracking System(s) include appraisal approving and reviewing official information, data relating to the owner and location (state, county and legal description), specification of property rights to be appraised, appraisal results, appraisal funding information, costs of services associated with appraisals and contractor and historical data. Master data files contain data related to request records and a unique number assigned to each individual request. Some of the appraisal request case file tracking systems contain scanned images of documents associated with appraisal requests.

Disposition Instructions: PERMANENT. Create duplicate copy of records off-line and physically transfer to the National Archives upon approval of this schedule in accordance with NARA instructions and guidance. Subsequent legal transfer of the records will be as jointly agreed to between DOI and NARA, as specified in NARA standards applicable at the time of transfer.

Data restricted in accordance with Privacy Act Notice as required.
