1. Customs Bonds

Bonds Records.

A variety of bonds are executed to provide security required by law to protect the revenue or insure legal compliance.

There are two classes of bonds.

1) Those approved by the Director, Carriers, Drawback and Bonds Division, and the Director of Entries, Procedures and Penalties Division, both officers at Headquarters, who obtain the record copy of the approved bond on behalf of the Commissioner.

2) Those approved by the District Director. In the case of the bond for Accelerated Payment of Drawback, the district director obtains the concurrence of the regional commissioner before acceptance. The record copy is kept at the field office. National use bonds will be kept as separate series and available to the district director.

Examples of national use bonds are: Carrier's Bond (CF 3587), Bond for the Control of Certain Instruments of International Traffic (CF 7587), Bond for Control of Identified Shipping Containers (section 10.41 CFR 19), Air Carrier Blanket Bond (CF 7605) and General Term Bond

for entry of merchandise (CF 7595). Whenever possible, bonds should be kept separate from other series which are routinely destroyed on an earlier basis. Bonds are described in section 113.13 and 14 CFR 19.

a. Bonds approved at Headquarters and National Use bonds approved by district directors. Destroy 6 years from the date of final liquidation.

b. Bonds for single entries which are normally filed with the entry papers series. Destroy in accordance with the disposition provided. See series 10/3 Temporary Importations under Bond (TIB) Entry, 143/1 Consumption Entries, Apprisement Entry, 144/1 Warehouse Entry.

All of these series entries provide that bonds filed with the entries of goods will be disposed of with the entry records. Destroy when 6 years old.
