Department of the Treasury

Office of the Commissioner of Customs

Washington, D. C. 20229

The Records Control Manual, as an integral part of the Files and Records Management System, is established for information and compliance.

The Records Control Manual is applicable to all organizational elements of the U. S. Customs Service.

The purpose of the Records Control Manual is to establish certain reduced records retention requirements and to provide guidance in maintaining an effective Records Control Program.

The provisions of this manual are effective July 1, 1973.

A. SECTIONS OF THE MANUAL

This manual consists of eight sections.

Section I provides general information on the purpose and applicability of this manual and describes the relationship of the Records Control Manual to the Files and Records Management System.

Section II provides definitions of records management terms used throughout the manual.

Section III consists of essential guidelines and procedural requirements which make the heart of this manual--sections IV, V, VI, and VII--a meaningful tool for the effective management of the retention and disposition of records created within the U. S. Customs Service.

Section IV explains the format of the Customs Records Retention and Disposition Schedule. This section identifies individual records, as well as types of records and what should be done with each.

Section V is a forms index, which is a guide for finding records listed in the Customs Records Retention and Disposal Schedule by form number.

Section VI is a Key Word In Context (KWIC) Index, which is a guide for finding records listed in the Customs Records Retention and Disposition Schedule.

Section VII contains the General Records Schedules published by the National Archives and Records Service (NARS). These schedules provide guidance for the retention and disposal of records which are common to most or all Government agencies. The General Records Schedules have been adopted as a standard by the U. S. Customs Service.

Section VIII provides samples of forms which are used in the process of control, transfer, retrieval, and disposal of records. Reference is made to these sample forms in several places in Section III. A list of basic reference material concerning records management also is provided in Section VIII.

B. PURPOSE

To provide continuing guidance in the maintenance of an orderly and timely system of Records Retention and Disposition on a service-wide basis. This manual is designed specifically to assist Customs personnel in planning and maintaining a systematic records control program which simplifies retention and disposition of records to the maximum extent. This manual supersedes the Records Disposal Manual which was revised June 11, 1958, and approved by the 85th Congress, 2nd Session, July 15, 1958; and which was reprinted to include all amendments to June 1, 1965.

C. SCOPE

This new Records Control Manual is applicable to all organizational elements in the U. S. Customs Service. The Customs Records Retention and Disposition Schedule in Section IV of this Manual shall be implemented in accordance with Bureau Circular ADM-4-A:M:D, dated

The Records Retention and Disposition Schedule is based upon the updated requirements of the Customs Records Disposal Manual, revised 1958, and amended in 1965; the General Accounting Office Manual for Guidance of Federal Agencies, Title 8; and the General Records Schedules (GRS) of the General Services Administration.

Where those publications have not been specific, the retention period and disposition of certain Customs records have been developed by comparison with other similar classes of records, and consultation with appropriate functional personnel having responsibility for those records.

Where a certain class of record is not covered by the Customs Records Retention and Disposition Schedule, consult the applicable GRS provided in Section VII.

CUSTOMS RECORDS CREATED BEFORE 1921 ARE NOT TO BE DISPOSED OF IN ACCORDANCE WITH THE PROVISIONS OF THIS MANUAL. CONSULT THE SERVICE RECORDS MANAGEMENT OFFICER BEFORE DISPOSING OF SUCH RECORDS.

The disposal instructions for the records described herein assume that all operating requirements have been complied with, i.e., postings or entries have been made to other records, where necessary; originals have been protected as indicated by appropriate operating instructions; and no obvious errors have been made in filing permanent or longer retention records with records of temporary value. Records directly pertinent to litigation, investigation or exception by the General Accounting Office or internal auditors may not be destroyed until all action is complete. It should be stressed that disposal of any record before the retention period has expired is unlawful.

D. RELATION TO FILES AND RECORDS MANAGEMENT SYSTEM

The Records Control Manual (RCM) is an integral part of the overall Files and Records Management System. This system includes the following components:

- Volume I Uniform Filing Guide and Subject Classification Index
- Volume II Records Control Manual (RCM)--including: Customs
Records Retention and Disposition Schedule, KWIC
Index and Forms Index

The RCM is largely complementary to the Circular Letters Manual, in that the RCM is organized along the lines of the primary and secondary subject categories listed in the Circular Letters Manual.

A KWIC (Key Word In Context) Index is attached to the RCM so that records can be easily located by the subject of the record or any key word within the title of that record.

S E C T I O N I I

D E F I N I T I O N S

For the purpose of the RCM, the following definitions apply:

A. DISPOSAL

Removal of records by destruction, sale as waste paper, or other forms of salvage, or transfer to non-Federal custody.

B. DISPOSITION

1. Determination whether records shall be retained, transferred, or destroyed.
2. The action taken upon the making of such a determination.

C. NONRECORD MATERIAL

Consists of the following:

1. Extra copies of documents preserved only for convenience of reference.
2. Extra copies of printed or processed materials of which official copies have been retained for purposes of record.
3. Stocks of publications and processed documents preserved for supply purposes.
4. Letters of transmittal that do not add information to that contained in the transmitted material.

NOTE: NONRECORD MATERIALS SHALL NOT BE INCORPORATED IN THE OFFICIAL FILES OF THE U. S. CUSTOMS SERVICE AND SHALL NOT BE REPORTED ON THE ANNUAL SUMMARY OF RECORDS HOLDINGS. IF THERE IS ANY DOUBT WHETHER AN ITEM IS RECORD OR NONRECORD, CONTACT THE SERVICE RECORDS MANAGEMENT OFFICER OR REGIONAL RECORDS OFFICER.

D. OFFICE OF RECORD

A designated organizational element responsible for the creation, maintenance, and preservation of documents, files and records which are related to the activities of that element in accordance with the laws, regulations, and directives pertaining to those activities.

E. OFFICIAL FILE STATION

A designated place where documents are retained. An official file station holds files and records for an office of record. An official file station may be a central file room, or any other location at which complete sets of files are kept. Active official documents will not be retained at other than official file stations.

F. PERMANENT RECORD VALUE

The material indicated has record value for an unlimited period of time, and is to be retained forever. Records so identified have been appraised as having enduring value--historical, research, legal, scientific, cultural, etc.

G. RECORDS

by The National Archives *

All books, papers, maps, photographs, or other documentary materials, regardless of physical form or characteristics that are:

1. Made or received by any agency of the United States Government in pursuance of Federal law or in connection with the transaction of public business, and
2. Preserved or appropriate for preservation by that agency or its legitimate successor as evidence of the organization, functions, policies, decisions, procedures, operations, or

*per authorization of Bob Hengst 5/29/73
0512

other activities of the Government, or because of the informational value of data contained therein. (Records Disposal Act; 44 U. S. C. 3301)

H. RECORD VALUE

A file or document appropriate for preservation has record value.

I. RECORD COPY

The original, or copy, of a document which is to be retained because it has record value.

J. RETAIN

The record specified is to be kept permanently. Records identified for retention may be so designated for archival or administrative (agency) reasons.

NOTE: DESIGNATION OF RECORDS FOR PERMANENT RETENTION IS SUBJECT TO PRIOR REVIEW BY THE SERVICE RECORDS MANAGEMENT OFFICER.

K. RETENTION PERIOD

The period of time which records must be kept before they may be subject to disposition; usually stated in terms of months or years, but sometimes determined by the occurrence of a specific event.

L. TEMPORARY RECORD VALUE

The material indicated has record value for a limited period of time only, and is subject to disposal after a specified period of retention.

SECTION III

IMPLEMENTATION

A. AUTHORITIES

The U. S. Customs Service is required by the Federal Records Act of 1950, which has been enacted into law as Chapter 31 of Title 44, United States Code, and implementing regulations (41 C. F. R. 101-11) to provide an active and continuing program for the economical and efficient management of Customs records. It is required that non-current records be systematically transferred to the National Archives, retired to the Federal Records Centers, or destroyed by authorized means.

The requirements pertaining to records which are the property of the General Accounting Office are contained in the GAO Manual for Guidance of Federal Agencies Title 8--Records Management and Services.

*

The Service Records Management Officer is solely authorized, subject to the approval of the Assistant Commissioner (Administration) or his designee, to amend or make exceptions to the requirements of the Files and Records Management System.

The requirements and the procedures for the retention and disposal of the records of the U. S. Customs Service, as promulgated in this manual, have been approved by the Archivist, National Archives and Records Service, and the Comptroller General, General Accounting Office.

B. RESPONSIBILITIES AND DUTIES

1. The Assistant Commissioner (Administration) has overall responsibility for the Files and Records Management System.
2. The Director of the Management Analysis Division, acting for, and with the approval of the Assistant Commissioner (Administration) is responsible for overall technical guidance and functional supervision of the system.

*Records which are identified as "retained" have been appraised by The National Archives and Records Service as being of permanent & archival value and are covered by The retention plan for customs records.
per authorization of B. Neufst
5/29/73 CSR

SECTION IV

CUSTOMS RECORDS RETENTION AND DISPOSITION SCHEDULE

A. HOW TO UPDATE THE CUSTOMS RECORDS RETENTION AND DISPOSITION SCHEDULE

Maintenance of an effective and continuing records management program in the Customs Service necessitates the imposition of effective controls over the creation, maintenance and use, and the disposition of all Customs records.

A well-functioning program results in economic use of space and equipment, and simplifies the identification and preservation of those records required to be retained by law for appropriate documentation of significant Customs activities.

To continue the required documentation and retention of records--while keeping the steadily growing volume of records stored within limitations imposed by available space, cost and manpower--the Customs Records Retention and Disposition Schedule must be kept current. To achieve this end, the following guidance is provided:

1. Compare the record items in the Customs schedule of this manual against the records on hand. Some records may be found that are not covered by the Customs schedule. Similarly, records already transferred to a Federal Records Center may not be covered. The Federal Records Center will call this latter to the attention of the transferring office.
2. All unscheduled records shall be reported to the Service Records Management Officer, who will take appropriate steps to revise the Customs Records Schedule.
3. To revise this schedule, the Service Records Management Officer will require the following information about unscheduled records:
 - a. The purpose for which the records were created; their relationship to the program activities of the unit

- creating them, and any other significant purpose or function they may or do serve.
 - b. The title and content of the records involved.
 - c. The applicable primary and secondary categories of the schedule.
 - d. The relationship to other records, including duplication elsewhere.
 - e. The physical form of the records; i.e., originals, carbon copies, tapes, ADP processed records, etc.
 - f. The inclusive dates of the files.
 - g. The type of records involved (correspondence, directives, reports, vouchers, etc.).
 - h. The volume of the records involved.
 - i. A specific recommendation for retention or disposal.
 - j. The requirement (legal, fiscal or administrative) upon which the retention or disposal recommendation is based.
4. In addition, the Service Records Management Officer shall be advised in writing of any proposed reduction in retention periods which reduce the volume of records on hand or stored in Records Centers without affecting the legal and financial rights of the Government and of persons directly concerned with Customs activities.
- a. This information shall be sent to the Service Records Management Officer with the request that disposition instructions be issued covering such changes. If the field official holding the files has definite ideas as to what should be done with them, he should include his opinions for whatever help they may be in determining the proper disposition of the files.

- b. Pending the receipt of such instructions, the records may be retained by the office holding them, or, if not currently needed, they may be transferred to the nearest Federal Records Center.

B. EXPLANATION OF SCHEDULE FORMAT

The schedule is structured to reflect the primary and secondary categories used within the Circular Letters Manual.

1. The records in this schedule are grouped into the following primary categories:

ADM	ADMINISTRATIVE	INO	INTERNATIONAL OPERATIONS
ADP	AUTOMATIC DATA PROCESSING	INS	INSPECTION OF CARGO
AIR	AIR COMMERCE	INT	INTELLIGENCE
APP	APPRAISEMENT	INV	INVESTIGATIONS
AUD	AUDIT	LIQ	LIQUIDATION
BAG	BAGGAGE	MAI	MAIL
BON	BONDS	MAN	MANAGEMENT
BOR	BORDER OPERATIONS	MAR	MARKING, LABELING, PACKING and STAMPING
BRO	BROKERS, AGENTS, and ATTORNEYS	NAT	NATIONAL DEFENSE
BUD	BUDGET	PER	PERSONNEL
CAR	CARTAGE AND LIGHTERAGE	PIN	PUBLIC INFORMATION
CLA	CLASSIFICATION	PLA	PLANNING AND RESEARCH
CON	CONDITIONALLY FREE MERCHANDISE	PRO	PROTESTS AND REAPPRAISE- MENT
COP	COPYRIGHTS, PATENTS, TRADEMARKS AND TRADENAMES	QUO	QUOTAS
COT	CONTAINERIZATION	RES	RESTRICTIONS AND PROHI- BITIONS
DRA	DRAWBACK	SEC	SECURITY
ENF	ENFORCEMENT	SPE	SPECIAL PROCEDURES FOR CERTAIN COMMODITIES
ENT	ENTRY OF MERCHANDISE	TEC	TECHNICAL SERVICES
EXP	EXPORT CONTROL	TRA	TRANSPORTATION IN BOND
FAC	FACILITIES	VES	VESSELS
FIS	FISCAL	WAR	WAREHOUSES
FOR	FOREIGN TRADE ZONES		

2. Each individual page of the schedule identifies the general subject matter of the records listed by both a primary and a

secondary category. The first time that a secondary category is given, a brief definition of it is provided. Pages of the schedule are numbered consecutively.

The "Coverage" statements for each secondary category are designed as general descriptive definitions of the subject matter of the records involved. Individual records are listed numerically by "Item NO.," and in alphabetical order under each secondary category and serve a dual purpose:

- a. Numerically, to provide a unique disposition reference.
 - b. Alphabetically, for easy reference by title.
 - c. Normally, a record which is not listed in the following schedule but which is similar to a scheduled record, will carry the same retention requirement as the listed record, and is to be handled in the same manner.
3. The schedule specifies the record value of each record listed.
- a. The following retention value codes have been assigned:

- NON-RECORD MATERIAL	(NR)
- TEMPORARY RECORD VALUE	(T)
- PERMANENT RECORD VALUE	(P)
 - b. Records listed in the schedule by item numbers are further identified by subject title and form numbers. Retention periods are noted for each record at the location where that record is retained locally and at the Federal Records Centers.
 - c. The following disposition codes are used:

- DESTROY	(D)
- TRANSFER TO FRC	(TR)
4. Although an effort was made to include as many specific records currently in use or subject to some retention requirement as possible, this schedule is not intended to be all inclusive. Questions concerning the applicability of the following schedule should be directed to the Service Records Management Officer.

To maintain the schedule at a level of highest usefulness, the procedures indicated in Section III should be followed for the periodic updating of the schedule.

5. The records disposition authorizations in this schedule are based upon administrative determinations of the U. S. Customs Service, General Services Administration (National Archives and Records Service), and the General Accounting Office.

NOTE: FOR RECORDS NOT COVERED BY THE CUSTOMS RECORDS RETENTION AND DISPOSITION SCHEDULE, REFER TO THE GENERAL RECORDS SCHEDULES FOUND IN SECTION VII.

1 GENERAL

COVERAGE: Includes material relating to general administrative services, functions, and activities common to all Customs offices; i.e., material not covered by any other secondary subjects under this primary category.
