N1-53-02-05-0001	<p>Title: SNORES-SAVINGS NOTES REISSUE SYSTEM-MASTERFILE</p> <p>Title Memo: The SNORES system was implemented in 1997 and discontinued in the year 2000. The system was used to encode Savings Notes transactions (RI, RCI, UCI, and VALS) for processing and issuance by the FRB Pittsburgh. There were two primary data tables: the detail table and the inscription table. The detail table data included, but was not limited to, bond denomination, issue date, and stock on hand. The inscription table data included, but was not limited to, customer information such as social security number, mailing address, and name. The inscription table was copied to a diskette and sent twice a week to Pittsburgh for the issuance of Savings Notes. This allowed the transactions to be approved at the Bureau of Public Debt, while maintaining the Savings Notes stock at Pittsburgh. There were no word processing, spreadsheet, or e-mail software packages attached to this system.</p> <p>Form Number: Form Series: Restrictions: SBU Computer System: SNORES Cost Code: 68000 Retention Years: 6 Retention Months: 3 Vital Records: <input type="checkbox"/></p> <p>Retention Description: Temporary.
