See the Attached Sheets
### 0001 Title: Savings Bond Stock Production Files

**Title Memo:** Public Debt is responsible for maintaining an adequate supply of bond stock in the centralized vault located at the Pittsburgh Branch of the Federal Reserve Bank of Cleveland. A variety of files are maintained to support this effort including, but not limited to, copies of Government Printing Office contracts with printing vendors; stock orders; documentation of design changes; information about security features; stock production contingency plans; contract claims; etc. This material has long-term value because manufacturing problems may not be discovered for a number of years after the bonds are printed; order information and records relating to the disposition of unissued stock support stock reconciliation efforts; and manufacturing details, bond specifications, and order histories are useful to senior managers considering changes in bond design, terms, and conditions. This item supersedes the following: N1-53-01-04, 0005; N1-53-01-04, 0006; and N1-53-01-04, 0008.

</table>

**Retention Description:** Temporary. Maintain files alphabetically by subject. Cut off files when definitive savings bonds have reached their final maturity. Destroy 20 years after cutoff.

### 0002 Title: Centralized Savings Bond Vault Inventory Statistics

**Title Memo:** Public Debt is responsible for monitoring savings bond stock levels in the centralized vault located at the Pittsburgh Branch of the Federal Reserve Bank of Cleveland. Files supporting this effort include vault inventory reports, general stock on hand reports, usage statistics, etc.
