<td>Exchange Subscriptions for United States Savings Bonds - Series H (Form PD 3253)</td>
<td></td>
</tr>
</tbody>
</table>

These documents, covering the period 1960 thru 1975, record a bondowner's application to a Federal Reserve Bank to exchange Series E Savings Bonds and Savings Notes for bonds of Series H. They are a reference source for determining principal coowners, verifying tax liabilities and satisfying other Series H exchange inquiries.

Subscriptions originating since 1976 are destroyed after microphotographic copies have been made. (Reference Parkersburg Comprehensive Schedule No. 4, Item 9).

The recommended retention period provides for the extended term to maturity (30 years) plus six years and three months.

Destroy 36 years and three months after origin.
