IRM 1.15.20, New Item 118
Employee Tax Compliance (ETC) System

Background:

The mission of the Workforce Relations Division is to establish IRS labor and employee relations policy and to provide related support and expertise to Service management and employees. The Employee Conduct and Compliance Office provides a centralized structure and forum for addressing concerns about employee conduct. They ensure that all allegations are addressed appropriately, in a fair and consistent manner, and that corrective actions are taken when necessary. The Employee Tax Compliance Branch within this Office administers the program identifying IRS employee potential tax non-compliance issues, including the timely and correct filing and payment of all federal tax liabilities.

The Employee Tax Compliance Project involves the annual identification of IRS employees who have failed various compliance checks related to non-filing or late filing of returns or non-payment of taxes. ETC was established in 1995, and processes approximately 10,000 cases annually. Users may add, update, query, close, and maintain cases depending on their user access levels.

Records are extracted three times per year to a client-server application where they are screened for employee non-compliance tax issues. When the case is referred to an employee's manager or there is an advisory issued for the employee, a record is downloaded to the Automated Labor and Employee Tracking System (ALERTS), which is scheduled under IRM 1.15.38 (or GRS 1), Item 28.

Description:

ETC System is used to manage IRS employee potential tax non-compliance case inventory.

a. Inputs:

Includes IRS employee data electronically received from TAPS (Totally Automated Personnel System), TIMIS (Treasury Integrated Management Information System, data derived from National Finance Center), and IMF (Individual Master Files)

Disposition. Recordkeeping copies of this data are appropriately scheduled under other authorities for TAPS, TIMIS, and IMF.

b. System Data:

Maintains data relevant to those IRS employees under investigation for possible non-compliance with IRS employee tax filing requirements. Data includes employee name, address, DOB, job series and grade, SSN, and tax owed. It also includes information about the IRS employees working the ETC cases, their comments and/or case description, as well as audit trails that identify and monitor the administrative actions within the system. When the case is referred to an employee's manager or
