STANDARD FORM 115 (REV. 3-91)
Prescribed by NARA 36 CFR 1228
Background:

Many foreign countries withhold tax on certain types of income paid from sources within those countries to residents of other countries. An income tax treaty between the United States and a foreign country often reduces the withholding rates (sometimes to zero) for certain types of income paid to residents of the United States. This reduced rate is referred to as the treaty-reduced rate.

Many U.S. treaty partners require the IRS to certify that the person claiming treaty benefits is a resident of the United States for federal tax purposes. The IRS provides this residency certification on Form 6166, a letter of U.S. residency certification.

Form 8802, Application for United States Residency Certification, is used by the public to request Form 6166. Form 6166 is a computer-generated letter printed on stationary bearing the U.S. Department of Treasury letterhead, and the facsimile signature of the Field Director, Philadelphia Accounts Management Center.

The process for issuing a certification for tax residency should be completed and final response initiated within 30 calendar days of the earliest IRS received date. Form 8802 application(s) are not processed, however, until the user fee is paid. If the IRS is unable to complete the Form 8802 processing within 30 days, the applicant must be notified of the delay and continue to receive interim letters every 30 days until the certification is issued or until IRS has determined that the certification application needs to be rejected (i.e. IRS records indicate that the applicant is required to file a return but failed to, or filed as a nonresident). After the IRS issues a rejection letter to the applicant, the case is considered closed.
Description:

U.S. CERT is a database application that processes Forms 8802 and validates U.S. residency in order to generate official Form 6166 letters for those entities (domestic and international) who wish to claim benefits under a tax treaty or to obtain exemption from a value added tax (VAT) imposed by a particular foreign country.

This application was formerly known as Foreign Certification Form 6166 (FOR CERT).

a. Inputs:

Form 8802, Application for United States Residency Certification, and any necessary attachments used by the public to request Form 6166, a letter of U.S. residency certification for purposes of claiming benefits under an income tax treaty or an exemption from a value added tax (VAT) imposed by a foreign country.

Disposition: Temporary. Cut off at end of calendar year in which case is closed (application is accepted or rejected). Closed files may be retired to Federal Records Center on a quarterly basis, as volume warrants. Destroy 6 years, 3 months after cutoff.

b. System Data:

Maintains data obtained from Forms 8802 and associated documents for the purpose of validating U.S. residency in order to generate official Forms 6166 letters. Data includes applicant name and address, taxpayer identification number, third party appointee’s information, applicant (tax) status, calendar year of request, purpose of the certification, and penalty of perjury statement.

Disposition: Temporary. Retain on-line 18 months after case is closed (application is accepted or rejected). Maintain archived copy off-line for an additional 10 years, then delete.

c. Outputs:

Includes Forms 6166 and other correspondence with applicants, such as interim letters notifying applicants of a delay in processing, and certification rejection letters.
**Disposition:** Temporary. Destroy when superseded, obsolete or no longer needed, whichever is later.

d. **System Documentation:**

Codebooks, records layout, user guide, and other related materials.

**Disposition:** Temporary. Delete/destroy when superseded or obsolete.
