a.) Add new pointer to Item 12 in RCS 1.15 33

The records are owned by the Deputy Commissioner for Services and Enforcement (DCSE) and processed by the Memphis Computing Center (ECC-MEM).

See the attached
**Background:**

The IRS Commissioner has a requirement to currently manage, coordinate, and track significant actions and high level inquiries and documents across the IRS Business Units. A COTS product, i-Trak, was procured to fulfill the requirement. The i-Trak system was upgraded to the e-Trak Web-based COTS product in September 2009. With the initial introduction into operational service, the e-Trak Software will include four application modules: Whistleblower, LATIS, GARNISH, and Correspondence. These modules are consolidations that replace existing independent IRS legacy software. The IRS Taxpayer Assistance Blueprint (TAB) Module was not transferred to the upgraded system. All TAB records have been archived. The TAB Initiative was a short term project, unlike the Public Law and Tax Gap Modules. The initiatives were completed by the time the system was upgraded, so it was not necessary to transfer the TAB Module. The TAB records are stored on a file with the system administrator.

**Legislative Analysis, Tracking and Implementation Services**

**Taxpayer Assistance Blueprint Application**

**Description:**

Taxpayer Assistance Blueprint (TAB) is a Legislative Analysis, Tracking and Implementation Services (LATIS) e-Trak Application used to track the IRS Taxpayer Assistance (TAB) Initiatives, components, required tasks, proposal status, and the associated Milestones. This is a set of Congressional mandates which require reporting to various sub-committees of Congress. These actions are needed to be taken in order to provide the subsequent quarterly reports on the status of the TAB initiatives to Congress.

**A. Inputs:**

The Taxpayer Assistance Blueprint (TAB) receives inputs manually from various sources including correspondence, memoranda, e-mail, reports and publications.

Disposition: TEMPORARY, Not Applicable. The Official Records of all inputs are appropriately scheduled under various items in Records Control Schedules 5, 9, and 33.

**B. System Data:**

Contents of the Taxpayer Assistance Blueprint (TAB) Application include, but are not limited, to the following Proposed Actions, Individual Action Plans, Milestones. Actions needed to be taken to implement legislation that impacts the IRS Taxpayer Assistance Blueprint (TAB), and current status of each action. LATIS maintains the list of actions required of all organizations of the IRS. In this way, the actions may be tracked from initiation to completion, while allowing for updates, follow-up, and notification or inquiry if items are not addressed timely or otherwise are at risk.

Disposition: PERMANENT, Cut off files at end of Taxpayer Assistance Blueprint Initiative. Transfer to the National Archives 10 years after cutoff.

另覧: 記録の保存期限は10年です。
C Outputs.

Outputs from the Taxpayer Assistance Blueprint (TAB) Application include a variety of reports. Documentation generated from eTrak supported Applications including the Legislative Analysis, Tracking Implementation Services (LATIS) Applications consist of weekly and/or biweekly reports of activities, status, trends, and statistics. Documentation also provides reports to the current status of service-wide actions/activities in supporting taxpayer assistance.

Disposition TEMPORARY Delete/Destroy when obsolete or no longer needed.

D System Documentation

System Documentation for the Public Law Module consists of e-Trak codebooks, records layout, user guide, and other related materials.

Disposition PERMANENT Cut off files at end of Taxpayer Assistance Blueprint Initiative Transfer to the National Archives 20 years after cutoff.
