### ITEM NO 8 DESCRIPTION OF ITEM OF PROPOSED DISPOSITION

1. IRM 1.15.29, Records Control Schedule for Submission Processing Campus Records

2. Remittance Strategy for Paper Check Conversion System (RS-PCC)

3. New Item 134
   A. Inputs  
   B. System Data  
   C. Outputs  
   D. System Documentation

See attached.
Background
The Remittance Strategy for Paper Check Conversion System (RS-PCC) will allow paper checks to be immediately converted to electronic transactions at the time and place of receipt, reducing payment deposit and posting times, and eliminating the need to manually transport most paper checks to Submission Processing Centers (SPC). Once the paper checks have been converted, the system transmits the information to the Remittance Transaction Research System (RTS) which was previously scheduled under NARA job number N1-058-09-47.

A. Inputs:
Inputs into the RS-PCC are received from multiple sources including the EFPPS, MITS-18 (EAIB), and from the taxpayer. Information received includes physical check, check data, check number, account number, routing number, dollar amount, Name, Taxpayer Identification Number (TIN), address, phone number, Deposit ticket number, and deposit amount.

1. Physical checks
Disposition: TEMPORARY. Delete/Destroy 14 business days after being scanned and verified for processing.

2. All other input data
Disposition: TEMPORARY. Delete/Destroy when no longer needed for business.

B. System Data:
Data in the RS-PCC includes all check image files, check data files and taxpayer information files.

Disposition: TEMPORARY. Cut off once information has been transferred to RTS. Delete/Destroy 19 days after cut off.

C. Outputs:
Check images and check data is transmitted to the Electronic Verification and Imaging System (ELVIS) within the Department of the Treasury’s Financial Management Service (FMS) for deposit into the Federal Reserve Bank of Cleveland.

Disposition: TEMPORARY. Records will be properly maintained in accordance with Treasury’s disposition schedule.
2. Check data and taxpayer data are transmitted to the Electronic Federal Payment Posting System (EFPPS) (formerly known as the Electronic Federal Tax Payment System (EFTPS)) for posting to the Master File

Disposition: TEMPORARY. Records will be properly maintained in accordance with approved schedule for the EFPPS (NARA job number N1-058-97-13, Item 15).

3. Check image files, check data, and taxpayer data is transmitted to the Remittance Transaction Research System (RTS) for storing and researching historical tax payment data and images

Disposition: TEMPORARY. Records will be properly maintained in accordance with approved schedule for the RTS (NARA job number N1-058-09-47).

D. System Documentation:

Disposition: TEMPORARY. Delete/Destroy when superseded or 5 years after the system is terminated, whichever is sooner.
