Business Performance Management System

Add New Item 20:
A. Inputs B. System Data C. Outputs D. System Documentation

See attached.
Background
The Business Performance Management System (BPMS) is a Business Intelligence system designed to support IRS' Strategic Planning & Budgeting, and Performance Management (SP&B/PM) process. It supports Executives and the Senior Leadership Team, Division Managers, Division Planners, and Analysts by providing (1) A centralized source of agency-wide planning and performance management data via the IRS intranet, (2) A guided analysis tool to facilitate planning and performance management at the enterprise, division and program level, and (3) A one-stop source for information on the SP&B/PM cycle.

A. Inputs:
Information is provided by existing IRS internal systems and applications.

Disposition: TEMPORARY. Delete when data have been entered into the master file or database and verified, or when no longer required to support reconstruction of, or serve as backup to a master file or database, whichever is later.

B. System Data:
The system includes data such as Critical Measures, Weekly/Monthly performance data, division reports and other supporting documents for the SP&B/PM cycle.

Disposition: TEMPORARY. Delete/Destroy when 7 years old.

C. Outputs:
Ad hoc reports related to strategic planning, budget and performance management processes.

Disposition: TEMPORARY. Delete when the agency determines that they are no longer needed for administrative, legal, audit, or other operational purposes.

D. System Documentation:

Disposition: TEMPORARY. Delete/Destroy when
superseded or 5 years after the system is terminated, whichever is sooner.
