encoding/endorsing by SCMD. Customers are instructed to put their Customer Number on their remittance so it can be matched with order card in case of a mix-up. Remittances are deposited in the Federal Reserve Bank.

Deposit in the Federal Reserve Bank after microfilming, reviewing, encoding and endorsing. (1 to 3 day period)

3. a. Microfilm of Checks/Money Orders

Remittances are filmed by date of remittance after reviewing and automatic endorsing by SCMD. These remittances are in payment for orders of coin sets and medals.

~~Retain in SCMD until end of the order acceptance cycle (2 months). Transfer to CSD. Destroy 5 years after date of remittance.~~

use General Records Schedule 6/1a

b. Microfilm of Order Cards

Order Cards are filmed in the sequence received. This is a separate microfilm from checks but is filmed in same order as checks so that order and remittance may be matched by customer number and name.

~~Retain in SCMD until end of the order acceptance cycle (2 months). Transfer to CSD. Destroy 5 years after date of corresponding remittance.~~

use General Records Schedule 6/1a

c. Microlog

Computer printouts of the order numbers of Batch Control Cards, the Microlog is filled in by the microfilers as cards are microfilmed. Contains block number, number of sets, roll number, filmer and date, reviewer and date and a space for remarks. With the customer's order number, researcher can locate from the Microlog the roll of microfilm containing the record.

NCI-104-791, Item 212

this change, and changes to Items 3 thru 7, and 9 + 10, approved per memo from Lois 01 March, 4/13/81
