Information Systems

1. Bureau of Engraving and Printing Management Information System (BEPMIS)

Hardcopy and electronic records of the Bureau's primary integrated financial, manufacturing, and product accountability system. BEPMIS is composed of many different modules and applications which support product accountability, inventory control, work-in-progress, accounting, and other Bureau activities. Many of the records created and maintained within BEPMIS are scheduled separately with related records for the appropriate functional activities.

a. Input data

TEMPORARY. Follow instructions for related records.

b. Electronic data

TEMPORARY. Close out files at end of each fiscal year. Hold in office at least 7 years, then delete when no longer needed.

c. Output and reports

TEMPORARY. File with related records and follow instructions for related records.

d. Supporting documentation

TEMPORARY. Close file when system is discontinued. Destroy 2 years after close of file.
Electronic Mail and Word Processing System Copies:

Electronic copies of record that are created on electronic mail and word processing systems and used solely to generate a recordkeeping copy of the records covered by other items in this schedule. Also includes electronic copies of records created on electronic mail and word processing systems that are maintained for updating, revision or dissemination.

a. Copies that have no further administrative value after the record keeping copy is made. Includes copies maintained by individuals in personal files, personal electronic mail directories, or other personal directories on hard disk or network drives, and copies on shared network drives that are used only to produce the recordkeeping copy.

Disposition: Destroy/delete within 180 days after the recordkeeping copy has been produced.

b. Copies used for dissemination, revision, or updating that are maintained in addition to the recordkeeping copy.

Disposition: Destroy/delete when dissemination, revision, or updating is completed
