Debt Management Services

Debt Management Services (DMS) is responsible for the development and implementation of the Department of the Treasury's responsibilities under the Debt Collection Improvement Act of 1996, which include maintenance and expansion of Government-wide debt collection services, particularly the Treasury Offset Program and mandatory Cross-Servicing debt collection.

The Treasury Offset Program (TOP) is a centralized offset program, administered by DMS to collect delinquent debts owed to Federal agencies and states (including past-due child support), in accordance with 26 U.S.C. § 6402(d) (collection of debts owed to Federal agencies), 31 U.S.C. § 3720A (reduction of tax refund by amount of the debts), and other applicable laws. FMS disburses Federal payments, such as Federal tax refunds, for agencies making Federal payments (known as "payment agencies"), such as the Internal Revenue Service. "Creditor agencies," such as the Department of Education, submit delinquent debts to FMS for collection and inclusion in TOP and certify that such debts qualify for collection by offset.

DMS is responsible for providing Cross-Servicing to Federal Program Agencies of direct debt collection and debt management. These services include: collection of delinquent non-tax debt referred by Federal partners; receivables management; coordination of the disposition of acquired real and personal property; consolidation of information reported to credit bureaus; and reporting discharged debts and vendors payment to the Internal Revenue Service. DMS reports to the President, Congress, the Office of Management and Budget (OMB), Federal agencies, and the public. DMS also tracks and reports agency referrals for debt collection services, DMS collection activities, and program performance measures.
