ITEM DESCRIPTION OF ITEM

The Regulatory Plan and Profile Data System (PDS) are electronic monitoring tools used by the OTS to enhance supervision and oversight of thrift institutions.

A Regulatory Plan is created for each institution, except conservatorships, within 30 days after transmission of the final Report of Examination to the institution. Thereafter, Regulatory Plans should be updated after each examination and between exams when information received indicates a need to update the plan. Additionally, each plan should be reviewed quarterly in conjunction with off-site monitoring activities, to determine if it is necessary to update it.

The Profile Data System (PDS) provides information to the Supervisory Profile section of the Regulatory Plan.

All records are on magnetic tape and electronic disks unless otherwise noted.

1. **REGULATORY PLAN AND PDS ACTIVITY REPORTS
(1992 to present)**

(These are ad hoc workload and enforcement action tracking reports requested by the user which are used in ongoing support of monitoring and quality control activities. The reports can be recreated from the database at any time.)
