ITEM DESCRIPTION OF ITEM

This computerized system is used to log the incoming mail addressed to the Director of the Office of Thrift Supervision (Controlled Correspondence) which requires a response. The Director's correspondence files are contained on the records retention schedule for Congressional Affairs.

1. Correspondence Tracking Data Base

This system tracks the response process for Controlled Correspondence. This includes: 1) all correspondence addressed to the Director; 2) referrals from the White House or the Executive Office of the President; 3) correspondence from the U.S. Department of Treasury; and 4) correspondence from members of Congress or their staffs. It maintains information on the date the letter was received, the name of the requester, the office responsible for the response, and other pertinent information. The data base is updated daily as the mail is processed. This system functions as a finding aid to the correspondence files of Congressional Affairs.

DISPOSITION:

At the time of transfer, the OTS will notify the National Archives of the continued existence of the Congressional Correspondence electronic data.
