Air Traffic Organization

MINOR SUBDIVISION
Technical Operations Services, AJW-28

NAME OF PERSON WITH WHOM TO CONFER
Steve Kalabokes

TELEPHONE NUMBER
(202) 385-6610

DESCRIPTION OF ITEM AND PROPOSED DISPOSITION
ENGINEERING DRAWINGS for National Airspace System (NAS) Buildings and Facilities (Order 1350 15C, Classification #6080)

These records are used to manage/maintain the National Airspace System (NAS) buildings and facilities. Records are created and maintained by the Computer Aided Engineering Graphics (CAEG) System. The CAEG consists of a suite of Computer Aided Design (CAD) and drawing management applications, a blend of commercial off-the-shelf (COTS), and developed applications.

The suite includes the Bentley Suite (COTS), the ProjectWise Electronic Drawing Management System (EDMS) (COTS), the intranet-based Radio Coverage Analysis System (iRCAS) and the Facility Power Panel Schedule (FPPS) (the latter two are developed applications). The iRCAS is an analytical tool.

The system creates and maintains engineering drawings. Users have the option of saving files of analyses to their desktops. FPPS is a web-based application and contains records of circuit breaker assignments for all critical power panels in a relational database management system. Records are updated and modified during the life of the building or facility.

AGENCY CERTIFICATION
I hereby certify that I am authorized to act for this agency in matters pertaining to the disposition of its records and that the records proposed for disposal on the attached page(s) are not needed now for the business for this agency or will not be needed after the retention periods specified, and that written concurrence from the General Accounting Office, under the provisions of Title 8 of the GAO Manual for Guidance of Federal Agencies,

☐ is not required
☐ is attached, or
☐ has been requested
